

Connecticut Mattress Recycling Program for Health Care Facilities

In 2013, Connecticut enacted Public Act 13-42, which required the mattress industry to create a recycling program for mattresses and box springs used and discarded in the state.

The new law does not require health care facilities that dispose of used mattresses in Connecticut to recycle them. Facilities located in the state may *voluntarily participate* in the program.

MRC will provide no-cost transportation and recycling services to facilities discarding 50 or more mattresses at one time.

The Mattress Recycling Council (MRC) is a non-profit organization established by the mattress industry to plan and manage the Connecticut mattress recycling program.

As of May 1, 2015, retailers and other businesses selling mattresses began collecting a \$9 recycling fee on each mattress and box spring that is sold to a Connecticut consumer. These fees will be remitted to MRC and used to recycle mattresses.

Benefits of Participating

Participating health care facilities no longer incur mattress recycling costs. MRC uses the collected recycling fees to pay for recycling mattresses.

Recycling mattresses conserves natural resources and benefits the environment. Program participants divert mattresses from landfills and allow materials like fiber, foam, steel and wood to be made into other useful products.

What MRC Provides

- Recycling of mattresses at no cost to you
- No-cost mattress drop off at an MRC contracted recycling facility
