A Program of the Mattress Recycling Council[®]

17

CALIFORNIA ANNUAL REPORT

SUBMITTED BY

Mattress Recycling Council California, LLC
501 Wythe Street
Alexandria, VA 22314

SUBMITTED TO

Department of Resources Recycling
and Recovery (CalRecycle)
1001 I Street
Sacramento, CA 95812

SUBMITTED ON

July 1, 2018

MRC received nearly
1.3 million
units and diverted nearly
40 million pounds
of material from disposal.

This Report is organized to follow the individual provisions of 14 CCR § 18964(b) as follows:

TABLE OF CONTENTS

Contact Information 14 CCR § 18964(b)(1)	pg. 5
Executive Summary 14 CCR § 18964(b)(2)	pg. 6
Registered Manufactures, Renovators, Retailers & Brands 14 CCR § 18964(b)(4)	pg. 12
Used Mattress Collection, Transport & Processing 14 CCR § 18964(b)(3, 5, & 6)	pg. 14
Abandoned Mattress Management 14 CCR § 18964(b)(7)	pg. 20
Program Objectives & Activities 14 CCR § 18964(b)(8)	pg. 25
Program Objectives & Progress	pg. 26
(A) Quantitative information on subdivisions (b), (c), (d), (e), (f), (g), and (j) of section 42990.1 of the Public Resources Code	pg. 29
(b) Quantity of mattresses disposed of in solid waste landfills	pg. 29
(c) Quantity of discarded used mattresses collected for recycling in the Program	pg. 29
(d) Quantity of used mattresses collected for recycling from different sources	pg. 30
(e) Quantity of each category of materials recycled	pg. 31
(f) Uses for recycled materials	pg. 31
(g) Quantity of otherwise disposed of material	pg. 33
(j) Total volume, number, and weight of used mattresses collected recycled, renovated, and reused	pg. 35
(B) Qualitative and/or quantitative information on subdivisions (g), (l), and (m) of section 42987.1 of the Public Resources Code:	pg. 37
(g) Research to improve used mattress collection, dismantling, and recycling operations	pg. 37
(l) Participation of urban and rural local governments and solid waste facilities and operations in mechanism to recover illegally disposed used mattresses.....	pg. 40
(m) Collection of used mattresses from low-income communities	pg. 41

APPENDIX F • Advisory Committee Report	pg. 168

CALRECYCLE REGULATIONS

14 CCR § 18964(b)(2) – The purpose of the Executive Summary is to provide a broad understanding of the mattress recycling organization’s program as a whole and to put into context the data and information that will follow. Provide a brief description of the mattress recycling organization’s used mattress recovery efforts during the calendar year pursuant to section 18962.

EXECUTIVE SUMMARY

EXECUTIVE SUMMARY

14 CCR § 18964(B)(2)

A. OVERVIEW OF THE MATTRESS RECYCLING COUNCIL CALIFORNIA, LLC

California’s Used Mattress Recovery & Recycling Act (as amended), Cal. Pub. Res. Code § 42985 (the Code), requires that mattress producers, through a certified “mattress recycling organization,” create a statewide recycling program (the Program) to collect mattresses and foundations (units) discarded in the state. The Code also provides that the Program will be funded by a visible recycling charge collected from consumers and other purchasers on the sale of each mattress and foundation purchased for use in the state, combat illegal dumping, and educate consumers and the industry about the Code and benefits of mattress recycling.

The International Sleep Products Association created the Mattress Recycling Council (the Council), a non-profit organization under Section 501(c)(3) of the Internal Revenue Code of 1986, to develop and administer the Program. The California Department of Resources Recycling and Recovery (CalRecycle) certified the Council as

the mattress recycling organization on July 2, 2014. On July 1, 2015, the Council proposed a statewide mattress recycling plan (the Plan), budget, and recycling charge. CalRecycle conditionally approved the Plan and approved the initial budget and recycling charge on October 1, 2015, and formally approved the Plan on January 29, 2016. As required by the Code, the Council launched the Program on December 30, 2015, 90 days after CalRecycle conditionally approved the Plan.

In addition to California, the Council also administers statewide mattress recycling programs in two other states — Connecticut and Rhode Island. Each of the three state programs has similar objectives:

- Develop an effective statewide network of mattress collection and recycling locations
- Increase the number of mattresses recycled in each state
- Reduce the impact of illegally dumped mattresses on local communities

- Educate consumers, retailers, and other stakeholders about the Program
- Minimize recycling costs for consumers and governments

Effective July 1, 2017, the Council created for each state program separate limited liability companies in which the Council is the sole member, and transferred all functions related to the Program to the Mattress Recycling Council California, LLC (MRC).¹

In promoting the Program among consumers, MRC has branded itself as “Bye Bye Mattress.”

B. SECOND YEAR PROGRAM HIGHLIGHTS

In 2017, MRC focused on expanding the collection network, increasing the number of mattresses collected and processed, expanding participation in the Illegally Dumped Mattress Collection Initiative, and improving MRC’s communications with mattress retailers and consumers.

Major accomplishments and activities in 2017 included:

Increased number of mattresses collected and recycled

- The Program collected nearly 1.3 million mattress and foundation units in 2017, surpassing the number of units collected in 2016 by 35%.
- The weight of material recycled also

increased by 35% in 2017 to nearly 40 million pounds.

- A key to these increases was MRC’s success in expanding its collection network throughout the state, including both rural and urban areas. In 2017, MRC added 38 collection sites to the Program, and hosted or participated in 74 community mattress collection events. By year end, MRC’s 234 collection sites and events served 51 of California’s 58 counties. This is a 36% growth from 2017 versus 2016. This growth has continued in 2018, with MRC now serving 55 counties.
- MRC’s Illegally Dumped Mattress Collection Initiative collected data that will help MRC understand where and how often illegal dumping occurs. In 2017, 47 entities participated in this initiative (up by nearly 20% compared to 2016), increasing the number of dumped units removed from California public spaces and rights-of-way by 75%. In addition to these significant year-over-year improvements, MRC has also substantially increased the funding for this effort in hopes that it will continue to grow in 2018.
- More California residents participated in MRC’s consumer drop off incentive, with the number of units collected in this manner increasing by 66% over 2016.

¹ For simplicity, the term MRC includes California activities of the Council from January 1, 2017 through June 30, 2017, and of MRC from July 1, 2017 until December 31, 2017.

Enforcement of retailer, renovator, and manufacturer registration and other obligations improved

- CalRecycle enforces compliance by mattress retailers, renovators, and manufacturers with their legal obligations to register with MRC and to report and remit to MRC the recycling charge that they collect from consumers. In 2017, MRC sought CalRecycle's assistance to determine whether nearly 200 parties that MRC staff had identified as potentially manufacturing, renovating, or selling mattresses in California, but that either did not respond to MRC's efforts to contact them or expressly refused to register with MRC, were not complying with the Code. By the end of 2017, 90% of those entities either registered with MRC or demonstrated that they were not obligated to do so.
- CalRecycle's enforcement team also provided site inspections to verify retailers' compliance with the no-cost mattress take back requirements in the Code.
- To improve MRC's and CalRecycle's ability to coordinate their independent enforcement activities, MRC developed an information sharing process to help CalRecycle's enforcement team identify non-compliant retailers.
- MRC meets monthly with CalRecycle staff to share information about progress made with industry registrations, discuss the status of pending compliance issues, and receive feedback from CalRecycle's site inspections.

Increased consumer awareness of MRC's Program and activities

- MRC conducted advertising campaigns in cities throughout California to promote the collection sites and local mattress collection events in which MRC participated.
- In 2017, MRC increased its earned media activities in California, highlighting for example new collection sites, upcoming collection events, and the benefits of mattress recycling. MRC estimates its 2017 earned media value at approximately \$500,000, a 141% increase over 2016.
- MRC expanded its consumer communications reach in 2017 by increasing its use of public service announcements and maximizing its Google AdWords grant. Combined, these activities garnered MRC approximately \$173,000 in equivalent advertising expenditures.
- ByeByeMattress.com's number of users increased 98% from 2016.
- In 2017, MRC created and launched a community event booth tour to promote the Program at seven large community events held throughout the state that were attended by over 200,000 California residents.
- MRC expanded its online and social media marketing to include Google Display ads.
- MRC's educational and promotional activities have paid off, as demonstrated by the fact that 60% of participants in a May 2018 survey were aware a mattress could be recycled in California.

C. REPORT OVERVIEW

Section 42990.1 of the Code requires that MRC submit to CalRecycle by July 1 of each year a report that includes the information described in Subsections (a) through (n) of that provision for the preceding calendar year. The recycling data included in this Report pertains to calendar year 2017 (that is, January 1-December 31, 2017).

The following terms defined in Section 42986 of the Code are relevant to this Report:

“Foundation” means a ticking-covered structure used to support a mattress or sleep surface. The structure may include constructed frames, foam, box springs, or other materials, used alone or in combination.

“Mattress” means a resilient material or combination of materials that is enclosed by a ticking, is used alone or in combination with other products, and is intended for or promoted for sleeping upon.

“Mattress” includes a foundation and a renovated mattress or renovated foundation.

“Mattress” does not include the following:

A. An unattached mattress pad unattached mattress topper, including items with resilient filling, with or without ticking, intended to be used with or on top of a mattress.

B. A sleeping bag or pillow.

C. A car bed, crib, or bassinet mattress.

D. Juvenile products, including a carriage, basket, dressing table, stroller, playpen, infant carrier, lounge pad, or crib bumper, and the pads for those juvenile products.

E. A product containing liquid-and gaseous-filled ticking, including a waterbed and air mattress that does not contain upholstery material between the ticking and the mattress core.

F. Upholstered furniture that does not otherwise contain a detachable mattress or that is a fold out sofa bed or futon.

“Recycle” or **“recycling”** means the process of collecting, sorting, cleansing, treating, and reconstituting materials that would otherwise become solid waste, and returning them to the economic mainstream in the form of raw material for new, reused, or reconstituted products which meet the quality standards necessary to be used in the marketplace. “Recycling” does not include incineration, pyrolysis, distillation, or biological conversion other than composting.

“Recycler” means a person that engages in the manual or mechanical separation of mattresses to substantially recover components and commodities contained in mattresses for the purpose of reuse or recycling.

“Renovate” or **“renovation”** means altering a used mattress for the purpose of resale and includes one or more of the following:

- A.** Replacing the mattress, ticking, or filling.
- B.** Adding additional filling.
- C.** Rebuilding a used mattress.
- D.** Replacing components with new or post-consumer materials unless the material is a clean recycled material, consists of used electronic parts or controls, or is a used mattress base that is not covered by ticking.

“Renovate” or **“renovation”** does not include any of the following:

- A.** Stripping a mattress of its ticking or filling without adding new material.
- B.** Sterilizing or sanitizing a mattress without otherwise altering the mattress.
- C.** Altering a mattress by a renovator when a person retains the altered mattress for lease, rental, or personal use.
- D.** Refurbishing that disqualifies a mattress for a yellow wholesale renovator tag to be affixed to the mattress, in accordance with the regulations adopted by the Department of Consumer Affairs.

“Renovator” means a person who renovates used mattresses for the purpose of sale, or offering for sale, in this state.

“Retailer” means a person who sells mattresses in the state or offers to a consumer a mattress in the state through any means, including, but not limited to, by remote offering, including sales outlets or catalogs, electronically through the Internet, by telephone, or through the mail.

In addition to the above statutory definitions, MRC for ease of reference has defined the term “Unit” or “Units” as used in this Report to be synonymous with the terms “Mattress” or “Mattresses,” respectively.

CALRECYCLE REGULATIONS

14 CCR § 18964(b)(4) - Include an updated list of participating manufacturers, renovators, and retailers and any updates to their respective contact information per section 18961(a)(2) and an updated list of brands covered under the plan per section 18961(a)(3).

REGISTERED MANUFACTURERS,
RENOVATORS, RETAILERS & BRANDS

REGISTERED MANUFACTURERS, RENOVATORS, RETAILERS & BRANDS

14 CCR § 18964(B)(4)

Appendix A contains a complete list of manufacturers, renovators, retailers, and brands that have registered with MRC as of May 15, 2018.

MRC also submits lists of registered manufacturers, renovators, retailers, and brands to CalRecycle monthly. See CalRecycle's Mattress Product Management page at www.calrecycle.ca.gov/mattresses for current registration information.

CALRECYCLE REGULATIONS

14 CCR § 18964(b)(3) – A description of methods used to collect, transport, and process used mattresses in California.

18964(b)(5) – Description of how consumers of mattresses in California had an opportunity to recycle and properly manage their used mattresses, including number, location, and type of collection points in the Program.

18964(b)(6) – May include a description of activities to ensure proper collection and management of used mattresses.

USED MATTRESS COLLECTION,
TRANSPORT & PROCESSING

USED MATTRESS COLLECTION, TRANSPORT & PROCESSING

14 CCR § 18964(B)(3, 5, & 6)

A. COLLECTION NETWORK GROWTH IN 2017

MRC designed its collection network to build on the existing solid waste collection infrastructure in California. Consumers have several options when discarding a used mattress, including:

- Asking their retailer to take back the old unit when delivering a new one,
- Dropping off the old unit at a no-cost MRC collection site,
- Dropping off the old unit at an MRC no-cost collection event, or
- Dropping off the old unit at an MRC-contracted recycler to receive an incentive payment.

In 2017, MRC increased the number of California collection sites by 31% compared to 2016. MRC also participated in 74 community collection events – nearly 50% more than in 2016. By the end of 2017, a total of 234 mattress collection sites and events throughout California accepted mattresses from consumers free of charge. This is an overall growth of 36% in the collection network.

FIGURE 1: MRC'S 2017 CALIFORNIA BYE BYE MATTRESS PROGRAM COLLECTION NETWORK

B. DISCARDED MATTRESS COLLECTION CHANNELS IN 2017

Using existing mattress collection methods and infrastructure, MRC in 2017 collected discarded mattresses through the channels discussed below. California residents and businesses can access more detailed information about these options at ByeByeMattress.com:

1. NO-COST RETAILER TAKE BACK

In 2017, California retailers collected discarded mattresses recycled through the Program in two ways. First, a consumer could request that a retailer take back an old mattress at no-cost if the retailer sold and delivered a new mattress to the consumer (provided delivery was not by common carrier). All mattress retailers could then deliver the discarded units they collected directly to an MRC-contracted recycler for no-cost recycling.

Second, to better serve retailers in remote or less-populated areas of the state that are not located near an MRC-contracted recycler, MRC offered trailers that retailers could use to consolidate discarded mattresses collected from consumers. In some cases, these trailers also served as no-cost drop-off locations for residents in these areas.

Units collected from retailers accounted for approximately 28% of the units the Program recycled in 2017.

2. CONSUMER DROP OFF AT PERMANENT NO-COST COLLECTION SITES

California consumers could discard their used mattresses for recycling at no-cost collection sites. Solid waste facilities comprise the majority of MRC's no-cost collection network, but locations also include other municipal sites that accept mattresses consistent with state solid waste regulations, as well as non-profit donation centers, commodity recycling locations (CRV/Scrap metal recyclers), and mattress retailers. In 2017, MRC increased its network of no-cost collection sites by 31% to 160 sites **(see Appendix B)**.

In 2018, MRC continues to expand this network, with a focus on underserved areas of the state. Among other things, MRC will be evaluating all solid waste collection contracts in California to locate and recruit additional communities into the Program including those that provide a no-cost curbside mattress pick-up service for their residents.

Consumer use of no-cost collection sites accounted for approximately 48% of units processed through the Program in 2017.

3. CONSUMER DROP OFF AT COLLECTION EVENTS

In 2017, MRC partnered with municipalities and civic groups to host

and promote 74 collection events, focusing on communities with no permanent mattress collection site or recycling facility. MRC publicized the events and paid for collection event labor, trailers, transportation, and recycling costs.

Through these events, MRC collected 1% of the Program's units and served six California counties that lacked a permanent mattress collection site or recycler. Examples of communities served by the events included the Yurok Tribe in Humboldt and Del Norte Counties, the Del Norte County Transfer Station, the Alpine Community Development Center, and City Clean Ups in Siskiyou County. **See Appendix B** for a full list of MRC's collection events.

In addition to offering a convenient venue for collecting mattresses for recycling, these events provided an excellent opportunity for MRC to promote the Program and the availability of mattress recycling in California.

4. CONSUMER DROP OFF AT MRC-CONTRACTED MATTRESS RECYCLERS

California residents may drop off discarded mattresses at an MRC-contracted recycler and receive \$3 per unit for up to five units per vehicle per day. The incentive was not available to businesses or government collectors.

MRC collected 20% of the units recycled in 2017 directly from residents through this collection channel. Furthermore, the amount of units that MRC paid the incentive for increased by 66% over 2016.

5. INSTITUTIONAL COLLECTORS

Hotels and other lodging establishments, dormitories, educational facilities, and other institutional purchasers of mattresses discarded units at no cost at MRC-contracted recyclers. Institutional collectors like these accounted for approximately 3% of the units collected through the Program in 2017. Units from these sources are typically clean, dry, and have a positive residual value as a renovated mattress in secondary markets.

Furthermore, an institution tends to discard mattresses intermittently. For several years, it may discard few or no units, but when it is necessary to replace the mattresses for a hotel, dormitory, or other institutional property, the institution will discard all the old mattresses at one time. As a result, the total number of units that the Program obtains from institutional collectors can fluctuate from year to year, depending on the number of properties that have replaced their existing mattresses in a year.

For these reasons, MRC does not anticipate that the number of units collected through this collection channel will increase significantly over the long term.

C. HOW ARE DISCARDED MATTRESSES TRANSPORTED TO RECYCLERS?

Mattresses are bulky and light cargo. As a result, efficient transportation is key to MRC's ability to control costs.

MRC uses a combination of mattress recyclers, third party logistics companies, and solid waste facilities to transport mattresses from collection sites to MRC-contracted recyclers. MRC provides storage containers that are

appropriate for the size and location of each MRC-contracted collector. MRC uses 53-, 48-, and 28-foot trailers, as well as roll-offs bins for sites with very limited space or other logistical constraints. The 53-foot trailer is the preferred container because it can hold the most units, resulting in the lowest per unit transport cost. Roll-off containers, which are the smallest storage and transport option, are the least efficient container alternative, but sometimes are the only option for collectors with small or restricted loading areas. Full containers are generally exchanged for empty containers in two business days.

D. HOW ARE DISCARDED MATTRESSES PROCESSED?

Once discarded mattresses arrive at a recycling facility, the recycler unloads the container. Units contaminated with bed bugs or putrescible solid waste cannot be recycled, but are separated for landfill disposal to minimize facility contamination and worker exposure.

The disassembly process will vary from one recycler to the next, but most use a combination of manual and mechanical processes. The steel wire found in

most mattresses and foundations is usually the most valuable and readily recyclable mattress material. The recycler will separate the steel manually or mechanically from other mattress materials. Depending on the purchaser's requirements, the recycler may transport loose loads of the steel to a metal recycler, or shred or compress it prior to shipment.

The recycler will then separate the other materials and (if possible) prepare them for sale to appropriate scrap customers.

E. MANAGEMENT OF DISCARDED MATTRESSES

MRC's contracted collectors must agree to comply with MRC's Mattress Recycling Program Guidelines. The Guidelines require collectors to distinguish between eligible and non-

eligible products. They also describe non-recyclable mattresses (e.g., those that are wet, infested, excessively soiled, etc.), explain how collectors must efficiently load mattresses on trailers, and how collectors can identify bed bug-infested units. MRC includes these guidelines in each collection site and event contract.

MRC conducts random and scheduled visits of recyclers and collectors to confirm their compliance with these requirements.

See Appendix C for a complete copy of the MRC's Program Guidelines and Mattress Recycling Standards.

CALRECYCLE REGULATIONS

14 CCR § 18964(b)(7) - A description of methods used by the mattress recycling organization to coordinate with existing used mattress collection and recycling programs with regard to the proper management or recycling of discarded or abandoned mattresses.

ABANDONED MATTRESS MANAGEMENT

ABANDONED MATTRESS MANAGEMENT

14 CCR § 18964(B)(7)

In 2016, MRC launched an initiative to better understand illegal mattress dumping in California. In planning this initiative, MRC learned that information about the state's illegally dumped mattress problem was either incomplete or largely anecdotal. To address the problem, MRC offered financial incentives to entities that collect illegally dumped mattresses in the state and provide MRC with relevant data concerning those units.

Participation in the initiative increased substantially in 2017, and MRC is taking action to encourage even more communities, including those in rural areas, to join this effort. Specifically, 47 entities reported data as part of the initiative in 2017 (an 18% increase over 2016), with most of them located in

urban areas. Combined, they provide waste collection service to over 15 million California residents (nearly 40% of the state's population). In 2017, participants collected 42,016 illegally dumped units.

MRC promoted the initiative to local governments and other relevant groups throughout California using CalRecycle's Listserv, the Mattress Advisory Committee (which includes representatives of communities and areas affected by illegally dumped mattresses), MRC's website MattressRecyclingCouncil.org, its monthly Program Update, emails, phone calls, and individual site visits. Eligible participants included city and county government agencies and solid waste authorities (and their contractors) that remove abandoned mattresses from public spaces and rights-of-way.

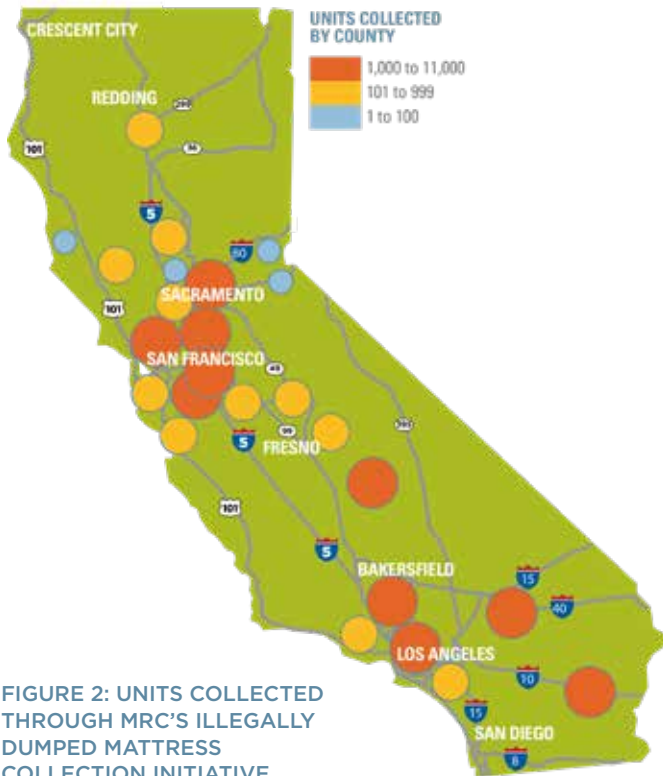

FIGURE 2: UNITS COLLECTED THROUGH MRC'S ILLEGALLY DUMPED MATTRESS COLLECTION INITIATIVE

To encourage more rural participation in the initiative, MRC in 2017 participated in the Rural Counties' Environmental Services Joint Powers Authority meetings, and met with such groups as the Resource Recovery and Waste Management Policy Committee of the County Engineers Association and the California State Association of Counties.

MRC will continue to work with CalRecycle's Illegal Dumping Technical Advisory Committee (IDTAC) and representatives from these communities to promote the initiative. These interactions provide an opportunity to present an overview of the initiative, collect feedback, and field questions.

MRC also surveyed and contacted entities that registered with the initiative but did not submit data to understand why. For example, some suggested that reporting deadline reminders and assistance with using the reporting system would be helpful. MRC has implemented these ideas to encourage these entities to participate actively in the future.

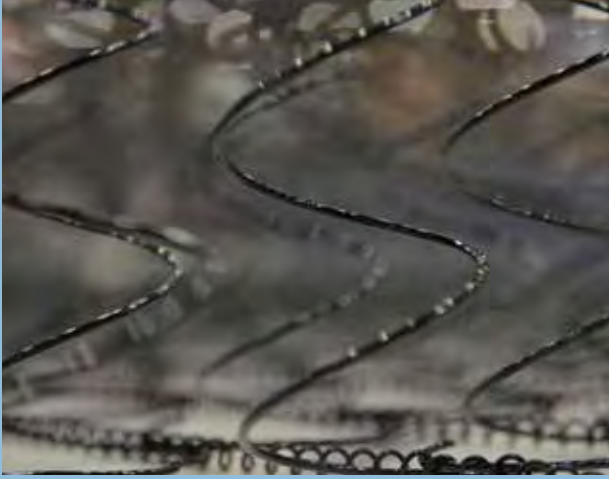

Developing objective data on California's illegal mattress dumping problem is critically important for policymakers who, until now, at most have had only anecdotal information about the issue in many communities. Without such empirical data, MRC and state policymakers cannot accurately understand where and why dumping occurs. In 2017, MRC incentivized entities to participate in the initiative, pick up dumped units, and collect and report relevant data by paying them

\$10 per unit collected. To encourage more participation and gather additional data in 2018, MRC has increased the incentive to \$15 per unit (up to a total of \$1,000,000).

The initiative is only one element of MRC's overall strategy to combat illegal mattress dumping. Proactive measures to intercept discarded mattresses before they are dumped and to encourage residents and businesses to use recycling facilities are also important tools for combating the problem. Therefore, MRC will continue to publicize the retailer take-back option, encourage residents to use no-cost collection sites, and promote the \$3 recycling incentive that recyclers can pay California residents who drop off their discarded mattresses.

In 2018, MRC also will begin formal research on the illegal dumping problem. For example, we will examine whether a correlation exists between (1) a community that offers no-cost bulky item pick-up services as part of its solid waste contract, and (2) the incidence of illegal mattress dumping in that community.

MRC will continue to work with CalRecycle, the Mattress Advisory Committee, and IDTAC to promote the initiative, evaluate its effectiveness, and consider alternatives.

CALRECYCLE REGULATIONS

14 CCR § 18964(b)(8) - Description of objectives and activities based on the used mattress recovery and recycling plan, per section 18962(a)(2). State objectives from the approved plan and describe progress toward achieving those objectives during the reporting period. Describe any adjustments to objectives stated in the approved plan that may be made for the upcoming reporting period and accompanying rationale for those changes. If any changes are significant or material, as defined, the mattress recycling organization shall amend and resubmit its plan for approval by the department. The annual report shall include:

A. Quantitative information on subdivisions (b), (c), (d), (e), (f), (g), and (j) of section 42990.1 of the Public Resources Code, including conversion factor(s), if used. When describing the uses for the recycled materials, the annual report shall identify the secondary markets to which those materials are sold, and potential end uses of those materials.

B. Qualitative and/or quantitative information on subdivisions (g), (l), and (m) of section 42987.1 of the Public Resources Code.

PROGRAM OBJECTIVES & ACTIVITIES

PROGRAM OBJECTIVES & ACTIVITIES

14 CCR § 18964(B)(8)

PROGRAM OBJECTIVES & PROGRESS

MRC designed its Program to manage discarded mattresses at the end of their useful life, increase the recovery and recycling of mattress components, and reduce the number of mattresses disposed of as solid waste or illegally dumped in California. Among other things, MRC created alternatives for diverting discarded mattresses generated by consumers, mattress retailers, and businesses throughout California before they are disposed of as solid waste.

MRC's Plan provided that MRC would seek to:

Publicize and support retailers' obligation to pick up old units upon request when delivering

new mattresses: Experience shows that many consumers discard a used mattress when they replace their current bed with a new one. By law, consumers may request that a retailer pick up their old mattress at no-cost when it delivers a new mattress (provided delivery is not by common carrier).

To encourage the use of this collection channel, MRC in 2017 devoted extensive resources to informing consumers and the industry about the retailer take-back obligation, and encouraging retailers to recycle those units through the Program. For example, retailers may transport discarded units that they pick up from consumers directly to MRC-contracted recyclers. For retailers located in remote or less populated areas of the state in which an MRC-contracted recycling facility is not conveniently located, MRC can provide consolidation trailers in which retailers may load their customers' discarded units. When full, MRC then transports to the closest recycler for processing. Some of these consolidation points also serve as no-cost collection sites where residents may drop off their discarded mattresses for recycling.

To increase recycling by retailers and other large-volume sources, MRC in 2017 also instituted an effort to transport units collected by retailers, hotels, and schools that accumulated at least 100 mattress discards.

In 2017, the Program collected 363,185 units through the retailer take-back

channel, which represented a 14% growth over the number collected in 2016, and accounted for approximately 28% of units the Program collected in 2017.

To increase these numbers further, MRC will launch a new ad campaign in 2018 to increase consumer awareness that the retailer will pick up a used mattress when a new one is delivered. MRC is also establishing more regional consolidation points in 2018 for retailers not located near MRC-contracted recyclers.

Establish a collection site or event in each county: By the end of 2017, MRC

had established permanent no-cost collection sites or participated in collection events in 51 of California's 58 counties. MRC encountered a variety of challenges in locating and contracting with new collection locations including:

- Lack of municipal resources to review and complete the contracting process,
- The complexities of negotiating a contract with third-party franchised solid waste companies which are already under contract to the local municipality, and
- Facility logistical considerations (lack of sufficient space for a 53-foot trailer, available labor, appropriate loading equipment).

FIGURE 1: FOR REFERENCE ONLY

At the time of this report submittal, MRC has further increased coverage to 55 counties, and anticipates pending contract negotiations with Yuba and Plumas Counties will result in both of those jurisdictions having permanent collection sites by the end of 2018. Marin County is the only county that has explicitly informed MRC that it has no interest in participating in the Program.

To continue to expand its collection network throughout the state, MRC in 2017 considered partnering with entities outside the traditional solid waste services category. MRC recruited entities that were already collecting other products for recycling to add mattress collection services to their businesses. For example, California Redemption Value (CRV) collection locations collect bottles and cans for the state's bottle bill redemption program. Some of these locations have sufficient space to hold a trailer for discarded mattresses. MRC worked with CalRecycle to recruit interested CRV locations to join the Program.

MRC also partnered with the California Conservation Corps (CCC) to establish new collection sites and provide event staffing for local community events in San Joaquin County. MRC is currently replicating this successful partnership model to establish a new CCC-staffed collection site in the City of Los Angeles.

In 2017, MRC obtained 884,092 units through consumer drop-off at collection sites, recycling facilities, and events, representing 68% of the total mattresses collected. This is a 55% increase over 2016.

Establish an incentive for consumers to bring discarded mattresses to recyclers: As stated in MRC's approved 2015 Program Plan, California residents may drop off discarded mattresses at an MRC-contracted recycler and receive

a \$3 per unit drop-off incentive, for up to five units per vehicle per day. The incentive is available only to residents, and not to businesses or government collectors. Further, the Plan provided the incentive would be paid only by MRC-contracted recyclers, and not offered by other entities. The incentive encourages California residents to manage discarded mattresses responsibly by taking them directly to an MRC-contracted recycler for processing.

In 2017, MRC obtained 255,621 units (approximately 20% of all units collected through the Program) using this collection channel. Of these, MRC paid the incentive for 202,338 units — a 66% increase over 2016. The remaining 53,283 units did not qualify for the incentive because the units were in excess of the five-unit limit or consumers dropped them off during non-operating hours. This channel is performing very well, given that one out of every five units that the Program collected were obtained through this channel, and that it has grown substantially in 2017 over the prior year.

Establish an initiative to encourage entities to collect illegally discarded mattresses throughout the state and collect data regarding the illegal dumping problem: In 2016, MRC developed an initiative to understand where, when, and how many mattresses are dumped in California. **See page 20** for a description of MRC's Illegally Dumped Mattress Collection Initiative.

A. QUANTITATIVE INFORMATION ON SUBDIVISIONS (B), (C), (D), (E), (F), (G), AND (J) OF SECTION 42990.1 OF THE PUBLIC RESOURCES CODE

(b) The quantity of mattresses disposed of in solid waste landfills

According to data reported to CalRecycle (and provided to MRC for inclusion in this Report on June 1, 2018), 382,925 units were disposed of in landfills in 2017.

(c) The quantity of discarded used mattresses collected for recycling in the program

The Program collected 1,286,757 units for recycling in 2017.

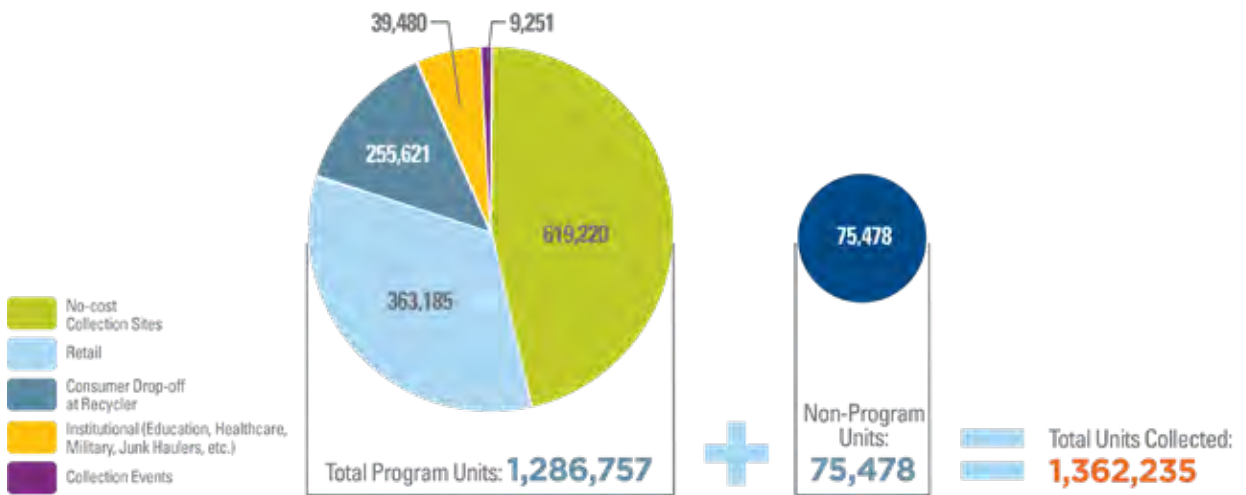

(d) The quantity of used mattresses collected for recycling from different categories of sources

In 2017, MRC’s contracted recyclers accepted for recycling a total of 1,362,235 units collected from the following sources:

TABLE 2: UNITS COLLECTED BY SOURCE

SOURCE	UNITS
Total Program Units	1,286,757
No-cost Collection Sites	619,220
Retail	363,185
Consumer Drop-off at Recycler	255,621
<i>Collector Incentive</i>	202,338
<i>Other Drop Off</i>	53,283
Institutional (Education, Healthcare, Military, Junk Haulers, etc.)	39,480
Collection Events	9,251
Non-Program Units	75,478
TOTAL UNITS COLLECTED	1,362,235

FIGURE 3: UNITS COLLECTED BY SOURCE

MRC-contracted recyclers process both Program Units (for which MRC compensates them) and non-Program Units. Non-Program Units include those that a recycler obtains from franchise haulers and solid waste facilities that do not participate in the Program, as well as mattresses manufactured by the Prison Industry Authority (which are excluded by statute from the Program). Although MRC’s recyclers

separately report Program and non-Program Units received at their facilities, the recyclers comeingle the materials recovered through the recycling process from Program and non-Program sources and report those materials together when sold. Sections (e), (f), and (g) report the total quantity, uses, and disposal disposition from both Program and non-Program material combined.

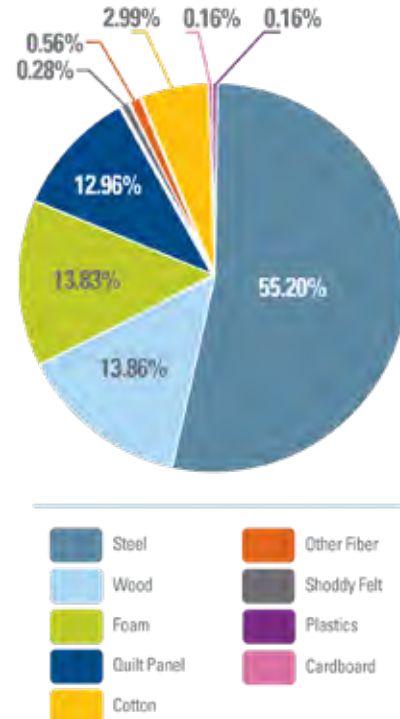

(e) The quantity of each category of materials recycled

MRC-contracted recyclers reclaimed the following materials from discarded mattresses in 2017.

TABLE 3: TOTAL MATERIALS RECYCLED FROM PROGRAM & NON-PROGRAM UNITS

MATERIALS RECYCLED (includes reuse & biomass)	QUANTITY (Lbs)	PERCENT
Commodities Total	36,834,445	100%
Steel	20,333,520	55.20%
Wood	5,103,569	13.86%
Foam	5,094,629	13.83%
Quilt Panel	4,774,562	12.96%
Cotton	1,099,736	2.99%
Other Fiber	207,850	0.56%
Shoddy Felt	102,160	0.28%
Plastics	59,115	0.16%
Cardboard	59,044	0.16%
Whole Mattresses Donated, Reused, or Renovated Total	2,460,260	
TOTAL MATERIALS RECYCLED	39,294,445	

FIGURE 4: TOTAL COMMODITIES RECYCLED FROM PROGRAM & NON-PROGRAM UNITS

(f) The uses for the recycled materials

MRC’s contracted recyclers sell the recycled materials into the following secondary markets for use in manufacturing new products:

Steel wire - Most mattresses contain steel springs, either in the form of innerspring or pocketed coils. Likewise, most foundations contain

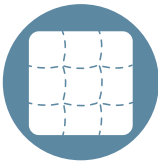

a steel wire interior structure. The steel can be shredded or baled for sale in the steel scrap markets and melted for use in making new steel products.

Foam - Most mattresses contain one or more layers of polyurethane and/or latex foam under the quilt panel. Once

the quilt panel is removed, the recycler separates that layer for baling and sale to scrap purchasers. Post-consumer foam is typically used to make carpet pad. Carpet pad is constructed primarily of post-industrial polyurethane foam but may also contain a small percentage of used carpet pad, post-consumer mattress foam, and post-consumer mattress quilt panels.

Quilt Panel - The top layer of a no-flip mattress (or the top and bottom layer of a two-sided mattress) is typically a

composite layer with decorative outer fabric (also called the ticking), one or more layers of fiber batting or foam (polyurethane or latex), and a thin backing fabric (usually a non-woven fabric) quilted together. Mattress recyclers typically remove the quilt and bale it for sale separately from other commodity types. Quilt panel has limited secondary uses and is most commonly chopped into small particles for use in making carpet pad. In this application, post-consumer quilt panel represents a small percentage of the finished product.

Foundation Wood - The interior frame of mattress foundations is commonly made of wood that is assembled using nails or staples. A steel wire

structure may be attached to the wood frame. Foundations are typically covered by a decorative ticking with a non-woven fabric covering the bottom of the unit. The recycled ticking or non-woven fabric have little if any secondary value. To dismantle the foundation, recyclers remove the ticking and non-woven fabric, then shear or shred the unit to separate the metal from the wood. The recycled wood can be used in secondary wood products like pallets, shredded into mulch, or burned for energy value in a biomass or waste-to-energy facility. Wood used for pallet reconstruction or burned as biomass fuel are reported as pounds sent to recycling.

Cotton, Shoddy Felt, Other Fiber - In addition to fiber in the quilt panel, mattresses may contain shoddy felt pads and other non-

woven materials made of fiber. These materials can be used as insulation or reinforcement layers. The composition of these layers varies by mattress type and may be made from cotton,

coconut husk, other natural fiber, rayon, polyester, or other synthetic fibers. While cotton has existing secondary markets, the other fibers have few secondary markets. By weight, these fibers comprise a small percentage of the weight of discarded mattresses.

Plastics – Retailers often place discarded mattresses that they collect in polyethylene plastic bags. Most recyclers bale and sell this plastic in scrap markets.

Cardboard - Mattress foundations may contain a layer of cardboard to separate the wood base structure and bottom non-woven fabric. Cardboard is baled and sold in scrap markets.

(g) The quantity of otherwise disposed of materials

In disposing of materials that are not presently recyclable into new products, MRC's contracted recyclers were guided by California's solid waste management hierarchy, as codified at, Cal. Pub. Res. Code §§ 40051 and 40052, which provide as follows:

Section 40051.

In implementing this division, the board and local agencies shall do both of the following:

(a) Promote the following waste management practices in order of priority:

- (1) Source reduction.*
- (2) Recycling and composting.*
- (3) Environmentally safe transformation and environmentally safe land disposal, at the discretion of the city or county.*

(b) Maximize the use of all feasible source reduction, recycling, and composting options in order to reduce the amount of solid waste that must be disposed of by transformation and land disposal. For wastes that cannot feasibly be reduced at their source, recycled, or composted, the local agency may use environmentally safe transformation or environmentally safe land disposal, or both of those practices.

Section 40052.

The purpose of this division is to reduce, recycle, and reuse solid waste generated in the state to the maximum extent feasible in an efficient and cost-effective manner to conserve water, energy and other natural resources, to protect the environment, to improve regulation of existing solid waste landfills, to ensure that new solid waste landfills are environmentally sound, to improve permitting procedures for solid waste management facilities, and to specify the responsibilities of local governments to develop and implement integrated waste management programs.

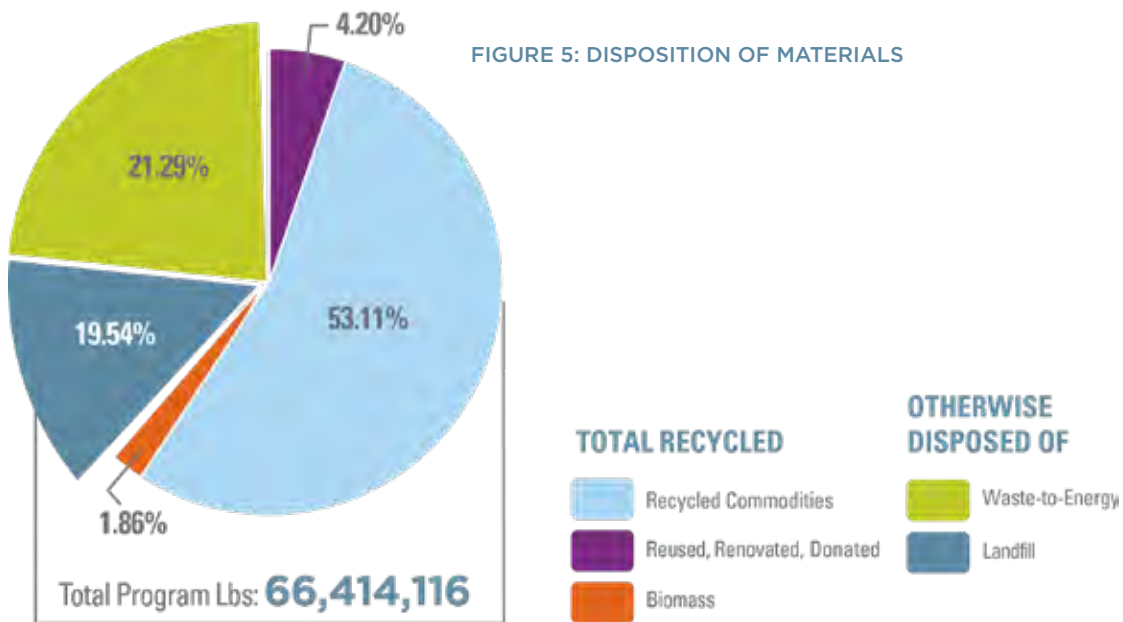

FIGURE 5: DISPOSITION OF MATERIALS

TABLE 4: DISPOSITION OF MATERIALS

DISPOSITION	QUANTITY (Lbs)	%
Total Recycled (Includes reuse & biomass)	39,294,445	59.17%
Waste-to-Energy (Transformation)	14,139,780	21.29%
Landfill	12,979,891	19.54%
TOTAL OUTBOUND	66,414,116	100.00%

Consistent with these requirements, MRC has implemented the Program in an efficient and cost-effective manner intended to conserve natural resources and protect the environment as follows:

SOURCE REDUCTION

The purpose of the Code is to reduce the volume of mattresses that consumers dispose of through California’s solid waste system, and eventually its landfills. As authorized by the Code, MRC advances this statutory objective in two ways. First, MRC captures discarded mattresses before they enter the solid waste stream or diverts them from the system once they have been collected by solid waste

facilities but before they reach landfills. In addition to reducing the quantity of discarded mattresses landfilled, MRC contractors reduce the volume of those units by dismantling them and recycling as much of the component material as possible through secondary markets.

REUSE

The Program has sought to divert discarded mattresses for recycling that would otherwise be disposed of as solid waste. The Program does not interfere with reuse or renovation activity that complies with state and federal law. Material reused or renovated is included in the total pounds of material recycled above.

BIOMASS CONVERSION

In 2017, wood diverted for Recycling was sent to biomass conversion facilities where the wood was converted into energy. In California, biomass is considered recycling, and is a preferred disposition method over waste-to-energy facilities and landfiling. MRC's contracted recyclers could have recycled additional quantities of wood fiber through biomass conversion in 2017, but were constrained by two factors outside of their control. First, there are a limited number of operational biomass facilities in California. Second, not all MRC-contracted recyclers are located near a biomass facility. Given that low energy prices and environmental regulations may cause additional biomass plants to close in the coming years, MRC does not know how sustainable this recycling outlet will be in the future. Material sent for biomass conversion is included in the total pounds of material recycled in the disposition table on **page 34**.

WASTE-TO-ENERGY (TRANSFORMATION)

If end markets did not exist for certain mattress components due to their high contamination levels or unavailable commodity markets, MRC-contracted recyclers sent some materials to waste-to-energy facilities, subject to environmentally safe transformation practices. While transformation is a form of disposal in California, MRC considers material used in waste-to-energy facilities to be preferable to landfiling.

LANDFILL

MRC's contracts require recyclers to recycle as much of each mattress and foundation as is reasonable and practical. When necessary, however, MRC-contracted recyclers have used environmentally safe landfill disposal. Materials that may be sent to landfill because they cannot be recycled may include mattresses or foundations that:

- Are severely damaged or twisted
- Are wet, frozen, or heavily soiled
- Are infested with bed-bugs or other biological contaminants that make them either unsafe to process or their constituent materials unmarketable
- Contain components for which a viable market may not yet exist, such as synthetic fibers, or for possibly contaminated components including soiled mattress toppers
- Have no financially viable or available end market

(j) The total volume, number, and weight of used mattresses collected recycled, renovated, and reused in this state

Cal. Pub. Res. Code 18965-18967 requires that mattress recyclers, solid waste facilities, and renovators report the number of used mattresses they collect, recycle, renovate, and reuse in California each year to CalRecycle. On June 1, 2018, CalRecycle provided MRC the aggregate unit data that these entities reported. In providing this data, CalRecycle noted that it took

the following actions regarding its 2017 data collection effort:

- Distributed notifications and reminder messages through the Solid Waste Information System (the database CalRecycle created for annual reporting) and the Mattress Product Stewardship Listserv.
- Contacted new entities and entities that failed to report via follow-up calls and emails (after conducting extensive internet research to locate contact information).
- Conducted a survey to gather feedback on the challenges reporting entities experienced during the first year of annual reporting to tailor outreach and communication to assist with this and future reporting cycles.
- Conducted a webinar on the annual reporting requirements and process.
- Updated CalRecycle’s Frequently Asked Questions document on its annual reporting website.
- Mailed violation notices to all entities that failed to report by the May 1, 2018 deadline and proceeded with progressive enforcement actions for those that have failed to report their 2017 calendar mattress activity.

CalRecycle staff noted that their confidence in the data collected improved from 2016 to 2017. The number of entities that provided data to CalRecycle, and the number of units that they reported they collected (or, in the case of solid waste facilities, received) in 2017, are in Table 5.

TABLE 5: UNITS COLLECTED FROM CALIFORNIA RECYCLERS, SOLID WASTE FACILITIES, AND RENOVATORS

ENTITY TYPE	ENTITIES PROVIDING DATA	UNITS COLLECTED/RECEIVED ¹
Mattress Recycler	9	1,365,924
Solid Waste Facility	361	1,048,130
Renovator/Reuse	28	350,824
TOTAL	398	2,764,878

The number of collected/received units includes those received from in-state and out-of-state sources.

CalRecycle informed MRC that these entities reported the following number of units were recycled, landfilled, or renovated/reused in 2017 (see Table 6).

The number of recycled units includes those being reported as processed by a recycler, as well as at solid waste facilities. Processed means the unit was dismantled, not that all of the

TABLE 6: UNITS RECYCLED, LANDFILLED, RENOVATED, AND REUSED IN CALIFORNIA

FINAL DISPOSITION	NUMBER OF UNITS ¹
Recycled (Processed)	1,344,887
Landfilled at Solid Waste Facilities	382,925
Renovated/Reused	263,646
TOTAL	1,991,458

¹ The number of units collected/received will differ from the disposition totals as the reporting entities did not process all units collected in 2017. Difference may represent units in inventory or diverted for other end uses.

component material was necessarily recycled. A certain number of solid waste facilities process mattresses on site. Solid waste facilities reported the number of units landfilled and renovators reported the number of units renovated/reused.

MRC converted these unit counts into cubic volume and weight using the following conversion factors:

- Cubic Volume: Multiplied the relevant units figure by 1.23 cubic yards per unit (which represents the non-compressed volume of typical queen size product, which nationally is most popular size sold). The cubic volumes of the relevant statistics are as follows:
 - Total collected: 3,400,800 cubic yards
 - Material recycled: 1,654,211 cubic yards
 - Material landfilled: 470,998 cubic yards
 - Material renovated/reused: 324,285 cubic yards

(For the sake of consistency, the above figures represent the volume of whole uncompressed units or materials. When landfilled, however, these materials are compressed to some degree.)

- Weight: Multiplied units by 55 pounds (average unit weight). The weights for the relevant statistics are as follows:
 - Total collected: 152,068,290 pounds
 - Material recycled: 73,968,785 pounds
 - Material landfilled: 21,060,875 pounds
 - Material renovated/reused: 14,500,530 pounds

(The average weight of 55 pounds per unit used in these calculations is based on a study of MRC-contracted recyclers conducted in 2017. For purposes of the 2016 Annual Report, MRC used an average of 49 pounds based on earlier data.)

The Solid Waste Facilities reported landfilling only 382,925 units in 2017. If one were to assume that the units reported to CalRecycle as recycled in 2017 (1,344,887) were diverted from landfills, these figures show that total quantity of units recycled statewide in 2017 as reported to CalRecycle reduced the landfill space that would have been consumed by discarded mattresses by 78% (that is, $1,344,887 / (1,344,887 + 382,925) = 0.78$). This data also suggests that it may be increasingly difficult for MRC to continue to expand the number of units that the Program collects and recycles since the number of units available for recycling appears to be limited.

B. QUALITATIVE AND/OR QUANTITATIVE INFORMATION ON SUBDIVISIONS (G), (L), AND (M) OF SECTION 42987.1 OF THE PUBLIC RESOURCES CODE.

(g) Conducting research, as needed, related to improving used mattress collection, dismantling, and recycling operations, including pilot programs to test new processes, methods, or equipment on a local, regional, or otherwise limited basis.

MRC seeks to improve the sustainability of mattress recycling through efforts focused on advancing the efficient collection, transport, and recycling of discarded mattresses and identifying new and better uses for extracted mattress components. MRC supports applied research and development efforts intended to achieve one or more of the following objectives:

- Identify new or better uses for recycled mattress materials
- Reduce the costs and improve the efficiencies of collecting, transporting, and recycling discarded mattresses
- Identify and promote mattress recycling best practices
- Foster innovation, cooperation, and communication between suppliers, manufacturers, dismantlers, and end-market commodity buyers

MRC faces long-term challenges that affect not only the Program's operational efficiency (in terms of improved collection, dismantling, and

recycling methods), but also its long-term financial sustainability because:

- Discarded units collected and processed through the Program are estimated to be 10 to 40 years old. Over that period, the size, weight, design, and material composition of mattresses has changed, and will continue to evolve over time.
- Discarded units are bulky and durable. These characteristics increase MRC's collection, transport, and recycling costs.
- Market prices for the reclaimed materials are volatile and the uses for these materials are limited.

To address these challenges, MRC has taken the following actions:

- In 2018, MRC will begin conducting a mattress age study to determine the average age of discarded mattresses. This information will be important to understand the full life cycle of a mattress and the number of units available for the Program to recycle.
- Being able to characterize the changing stream of discarded units will be important to MRC's ability to plan and optimize its collection, transport, and recycling network, as well as understand the size and nature of potential markets for the various materials reclaimed through the recycling process. MRC conducted a study analyzing the weight of over 20,000 mattresses and foundations in all three states in which it administers mattress recycling programs. This analysis determined

the average weight of a discarded unit (both mattresses and foundations) is 55 pounds per unit.

- MRC would like to help match its recyclers with potential customers for extracted commodities. In addition, MRC is working with potential end users to test samples of reclaimed mattress materials and explore different existing use opportunities. For example, MRC has worked with a company that is exploring the extent to which post-consumer polyurethane foam can be converted back to some of its chemical constituents (e.g., polyols) for use in making new products.
- MRC is convening and participating in a variety of regional, national, and international meetings and forums to explore how to address the Program's long-term challenges. These interactions range from:
 - Sharing with counterparts involved in mattress recycling efforts around the world the problems and potential solutions we have each experienced regarding operational and end-use challenges
 - Building relationships and meeting with other organizations working on long-term approaches to expanding the uses for post-consumer recycled materials in an effort to identify new opportunities to use recycled mattress materials (for example, an EU-funded project to use recycled mattress materials as thermal insulation in a modular low-income housing project)
- MRC previously commissioned research to investigate potential uses for mattress materials for which limited recycling options are currently available, including post-consumer foam, fiber, quilt panel, and wood. The potential opportunities identified by the research included such diverse categories as geotextiles, insulation, sporting goods and play surfaces, packaging materials, and additives to concrete and other building materials. MRC intends to build on this research in 2018.

MRC also plans to develop opportunities for its contracted recyclers to improve their efficiencies by sharing best practices.

(I) Participation of urban and rural local governments and permitted solid waste facilities in efforts to collect illegally dumped mattresses.

See page 20 for a description of MRC’s initiative to collect illegally dumped units. The U.S. Census Bureau’s latest American Community Survey shows that the following areas of California are urban and rural². Overlaying on this map

² Urban and Rural References - County Classification Lookup Table <https://www.census.gov/geo/reference/urban-rural.html>

the locations served by the entities that participated in MRC’s dumped mattress collection initiative shows that entities in urban areas of the state participated in this effort.

To encourage more rural participation in the initiative, MRC in 2017 participated in the Rural Counties’ Environmental Services Joint Powers Authority meetings, and met with such groups as the Resource Recovery and Waste Management Policy Committee of the County Engineers Association and the California State Association of Counties.

MRC will continue to work with CalRecycle, the Mattress Advisory Committee, and IDTAC to promote the initiative, evaluate its effectiveness, and consider alternatives.

(m) Developing processes to collect used mattresses from low-income communities for recycling in accordance with the poverty line annually established by the Secretary of California Health and Human Services pursuant to the federal Omnibus Budget Reconciliation Act of 1981 (Public Law 97-35), as amended.

MRC’s comprehensive, statewide mattress recycling program provides California residents with:

- No cost retailer pick-up of discarded mattresses when the retailer delivers a new mattress to a consumer regardless of community income

- No cost drop-off options for state residents at designated collection sites and collection events throughout California
- A financial incentive to deliver discarded units directly to an MRC contracted recycler

Per the U.S. Census Bureau’s 2016 Small Area Income and Poverty (SAIPE) Program, Fresno and Tulare counties had the highest percentage of their population in poverty. In 2017, MRC established seven additional collection sites in Fresno County consisting of solid waste facilities, non-profit organizations, and a local scrap dealer. In Tulare, two additional solid waste facilities opted to become collection sites, and MRC participated in 17 community collection events. Furthermore, a recycler located in Fresno gives residents in the Central Valley an opportunity to collect the \$3 consumer incentive. In comparison to MRC’s entire network, Fresno County ranks third in the number of collection sites available to residents, and Tulare had the most collection events.

Fresno and Tulare counties also participate in MRC’s Illegally Dumped Mattress Collection Initiative, which is another mechanism for collecting discarded units from low-income communities.

Since the Program’s inception, the Central Valley has been among MRC’s target markets for its public education campaign.

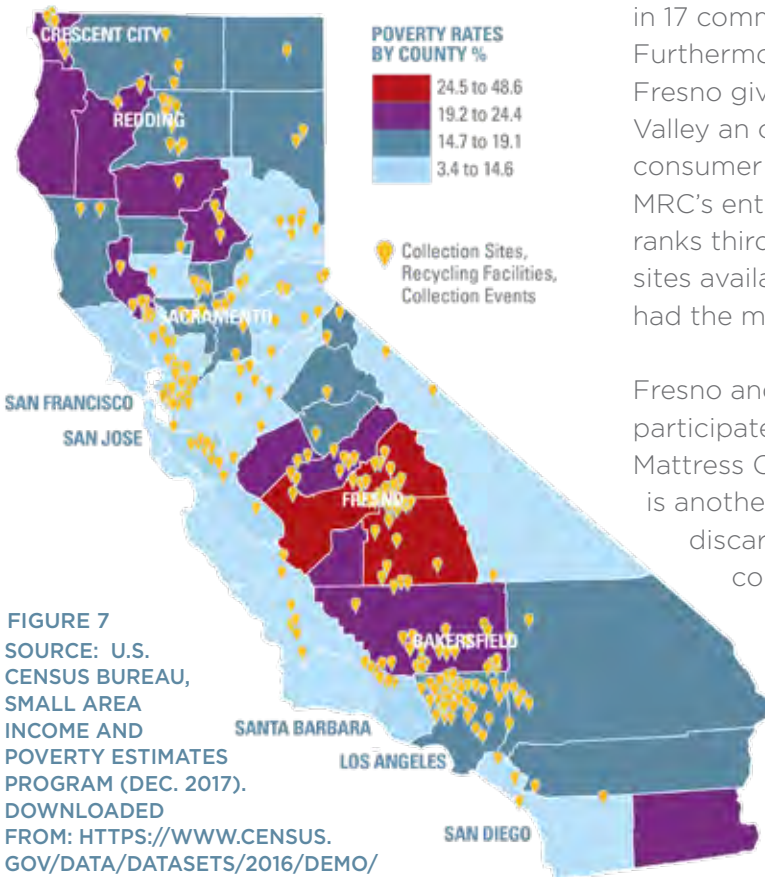

FIGURE 7
SOURCE: U.S. CENSUS BUREAU, SMALL AREA INCOME AND POVERTY ESTIMATES PROGRAM (DEC. 2017). DOWNLOADED FROM: [HTTPS://WWW.CENSUS.GOV/DATA/DATASETS/2016/DEMO/SAIPE/2016-STATE-AND-COUNTY.HTML](https://www.census.gov/data/datasets/2016/demo/saipe/2016-state-and-county.html)

MRC distributed Spanish versions of the PSAs to local TV and radio stations and placed Spanish advertisements in this area's media. It also incorporated the Fresno County Fair into its inaugural community education booth tour and has continued to attend Visalia's Earth Day festival to engage with residents. Considering MRC's May 2018 consumer awareness survey found 60% of California residents are aware of mattress recycling, MRC will continue to use its current public education tactics. However, MRC's increased 2019 advertising budget also allows MRC the ability to conduct niche community or multilingual outreach and monitor its effectiveness.

MRC will continue to expand the collection network in low-income communities in the same manner as other areas of the state - by adding retailers, solid waste facilities, non-profit organizations, scrap dealers, or bottle redemption program locations as collection sites, as well as participating in collection events, and working with municipalities to receive units from curbside collection of bulky waste.

CALRECYCLE REGULATIONS

14 CCR § 18964(b)(9) Financing Mechanism. Include the mattress recycling organization's total expenses and revenues associated with the implementation of the used mattress recycling program. Changes to the mattresses recycling charge shall be reflected in the annual program budget for approval by the department. If a mattress recycling organization changes the amount of the mattress recycling charge in the first 12 months during which the mattress recycling charge is being collected per subsection (1) of subdivision (c) of section 42989 of the Public Resources Code, the mattress recycling organization shall provide the department no less than 90 days' notice before the change in the amount of the mattress recycling charge takes place. If a mattress recycling organization conducts activities that are separate from the implementation and management of the California used mattress recycling program, then the annual report shall include documentation on how the collection and use of funds from the California mattress recycling charge were kept separate from other activities of the mattress recycling organization, including the methodology for distribution of shared costs. Consistent with subdivision (a) of section 42990.1 of the Public Resources Code, the annual report shall include the following:

- A.** Mattress recycling charge per mattress size
- B.** Capital costs
- C.** Education & Outreach costs
- D.** End-of-life used mattress management costs with line items, if applicable, for collection, transportation, recycling, renovating, reuse, and proper disposal
- E.** Program administration costs including, but not limited to, the department's costs pursuant to subdivision (a) of section 42988.2 of the Public Resources Code, and third party legal costs. Surplus funds, if any, and detailed rationale for the specified level of surplus.
- F.** For the first 12 months during which the mattress recycling charge was collected, include a description of any changes to the amount of the mattress recycling charge, and how implementation of the change complied with subsection (1) or (2) of subdivision (c) of section 42989 of the Public Resources Code, if applicable. The mattress recycling organization may also include a description of why the change was made.

FINANCING MECHANISM

FINANCING MECHANISM

14 CCR § 18964(B)(9)

INTRODUCTION

MRC operates similar mattress recycling programs in three states: California, Connecticut, and Rhode Island.

In 2017, MRC established separate limited liability companies for each state program.

MRC maintains separate accounts to isolate the recycling charge revenue in each state program. Each state program's accounts also reflect the direct expenses each incurs (e.g., recycling, transportation and storage expenses, marketing, etc.). MRC allocates shared expenses (such as the cost of MRC's database program, general corporate legal fees, overheads, etc.) among the three state programs based on the relative populations of these states. Each state program account also includes a reserve for that state program.

Under separate cover, MRC is submitting to CalRecycle its proposed 2019 California budget and mattress recycling charge.

Using the format specified in CalRecycle's regulations, MRC's total 2017 expenses and revenues associated with the California Program are as follows:

A. REVENUES

The 2017 per unit California mattress recycling charge, collected on all sales of mattresses and foundations to California residents or end users (such as hotels, dormitories, etc.), regardless of size, was \$11 per unit. In 2017, registered retailers and other sellers reported California sales of 4,046,014 units. As a result, MRC's 2017 revenue from the recycling charge was \$44,506,154 (4,046,014 units multiplied by \$11). In addition to this amount, the California Program earned a modest amount of \$228,330 in interest, for a total revenue of \$44,734,484.

B. CAPITAL COSTS

Other than small expenditures on computers, software, and office equipment, MRC incurred no capital costs in 2017 related to the California Program.

C. EDUCATION & OUTREACH COSTS

MRC substantially increased its marketing and communication activities in 2017 in response to the growing network of collection locations and participating retailers. Total costs for these activities were 30% above 2016 levels.

MRC's communications expenses include those incurred for outreach to consumers and the mattress industry. Activities included direct mail, maintaining websites, radio, TV and print advertisements, consumer education materials, digital marketing, social media, stakeholder emails and e-newsletters, as well as industry and community events. MRC increased the 2017 advertising and consumer education expenditures by 64% over 2016. Community collection event spending in 2017 increased by 100% over the prior year.

In 2017, MRC incurred the following expenses in implementing its marketing and communications activities:

TABLE 7: EDUCATION & OUTREACH COSTS

CATEGORY	2017 EXPENSE
Advertising and Consumer Education	\$ 1,289,505
3rd Party PR Agency	\$ 152,207

MRC Marketing & Communications Staff	\$ 165,985
TOTAL EDUCATION & OUTREACH COSTS	\$ 1,901,579

D. END-OF-LIFE USED MATTRESS MANAGEMENT COSTS

MRC classifies these costs as “Recycling, Transportation, Operational Costs.” As summarized in table 8, MRC’s operations expanded substantially in 2017, with total end-of-life management costs increasing by 67% over 2016.

In 2017, MRC paid the following to facilitate the collection, transportation and recycling of discarded mattresses throughout the state.

Collection: MRC paid third parties \$2,353,507 to consolidate discarded mattresses in containers provided by MRC. This includes \$420,160 to authorized collectors of illegally dumped mattresses that participate in and provide data for MRC’s Illegally Dumped Mattress Collection Initiative.

Containers: MRC incurred costs of \$465,910 for trailers or roll-off containers to hold collected mattresses.

Transportation: MRC paid \$3,635,235 to transport collected units in containers to MRC-contracted recyclers.

Recycling: MRC contracts with third party recyclers to dismantle and recycle units in California. MRC paid six contracted recyclers \$13,839,520 for these services. MRC did not incur end-of-life management expenses related to renovation.

TABLE 8: END-OF-LIFE USED MATTRESS MANAGEMENT COSTS

CATEGORY	2017 EXPENSE
Collection	\$ 2,353,507
Containers	\$ 465,910
Transportation	\$ 3,635,235
Recycling	\$ 13,839,620
TOTAL RECYCLING, TRANSPORTATION, OPERATIONAL COSTS	\$20,294,172

TABLE 9: 2017 PROGRAM TOTAL COSTS

CATEGORY	2017 EXPENSE
Education and Outreach Costs	\$ 1,901,57
Recycling, Transportation, Operational Costs	\$ 20,294,172
Program Administrative Costs	\$ 3,046,890
Research and Development Costs	\$ 54,776
TOTAL PROGRAM COSTS IN 2017	\$ 25,297,417

E. PROGRAM ADMINISTRATION COSTS

In 2017, MRC spent \$3,046,890 in administration costs. Of this, MRC spent \$89,488 on legal services and CalRecycle invoiced MRC \$447,048 for oversight expenses.

MRC incurred \$54,776 in research and development expenses in 2017. Now that the Program has matured and expanded, we plan to increase these expenses in 2018 and subsequent years.

Reserves: The MRC Board has defined board-designated financial reserves, set aside as the MRC reserve fund. As of December 31, 2017, the financial reserve designated for the California Program is \$30,573,763. MRC maintains this financial reserve so that it can operate over a multiyear period in a prudent and responsible manner, as required by California law.

MRC is still in its expansion phase and will continue to develop its collection network, broaden its geographic coverage, and increase the number of units collected over the next several years. This growth will result in MRC incurring additional operational and administrative expenses.

In addition, MRC must be prepared in case its current operational expenses increase as a result of factors beyond its control. For example, 2017 price fluctuations in commodity markets had disastrous effects for many recyclers, both in California and globally. These shifts can affect a recycler's economic viability and, in the case of lower steel and foam prices, can result in mattress recyclers requiring increased compensation from MRC.

For these reasons, MRC has established a reserve that is sufficient to allow MRC to address these and other unforeseen expenses that may arise as the Program expands, evolves, and matures now and for the next several years, providing the financial resources that MRC may require to react and respond to such exigencies promptly and properly. Specifically, MRC's reserve is intended to equal 12 months of what MRC has forecast it will spend in 2020 to run a financially sustainable recycling program that can also address substantial risks and other unknown factors.

F. RECYCLING CHARGE

The mattress recycling charge, regardless of unit size, was \$11 per unit throughout 2017.

CALRECYCLE REGULATIONS

14 CCR § 18964(b)(10) - Education and Outreach. Provide a description of educational materials that were provided, including electronic examples of these materials. Identify any method(s) used to determine the effectiveness of educational and outreach efforts (e.g., surveys, hits on specific web pages number of participants at the events, etc.), if applicable. Describe any changes to those materials that are planned for subsequent years, if applicable.

EDUCATION & OUTREACH

EDUCATION & OUTREACH

14 CCR § 18964(B)(10)

INTRODUCTION

MRC's education and outreach efforts are designed to inform consumers, mattress retailers, producers, large volume purchasers, and other stakeholders:

- about the Program
- that the charge is mandated by state law
- why the charge is needed and what it funds
- about opportunities for recycling discarded mattresses through the Program
- that some parties have obligations under the Program

To reach these audiences, MRC uses a wide array of communications and marketing methods including targeted direct mail and printed collateral, advertising and media relations, websites and social media, site visits, and participation in community and industry events. MRC has registered the names Mattress Recycling Council and "MRC" for use with industry and non-consumer stakeholder audiences, and "Bye Bye Mattress" as its consumer-facing identity.

A. CONSUMER EDUCATION

To build awareness of Bye Bye Mattress, MRC developed a website (ByeByeMattress.com) with corresponding consumer education materials and a Public Service Announcement (PSA) campaign. MRC’s branding strategy also uses paid and online advertising, community events, media relations, and social media to increase Program awareness.

1. BYEBYEMATTRESS.COM

Consumers may easily find no-cost recycling locations in California and information about the recycling charge and Program on ByeByeMattress.com. MRC promotes the site through advertising, public service announcements, media outreach, social media, community events, and customer education materials.

Although most consumers visit ByeByeMattress.com to access the recycling locator, the site also contains

BYE BYE MATTRESS WEBSITE

important information about the recycling charge, updates about the Program’s performance, and MRC’s expansion efforts in the state. It is also a platform for educating the public about the mattress recycling process and its environmental benefits.

Website sessions on ByeByeMattress.com increased 101% from 2016 to 2017 as noted in Figure 8. Users increased 97%.

In 2017, MRC changed ByeByeMattress.com to enhance the user experience for visitors using mobile and tablet devices (who account for approximately half of the site’s visitors).

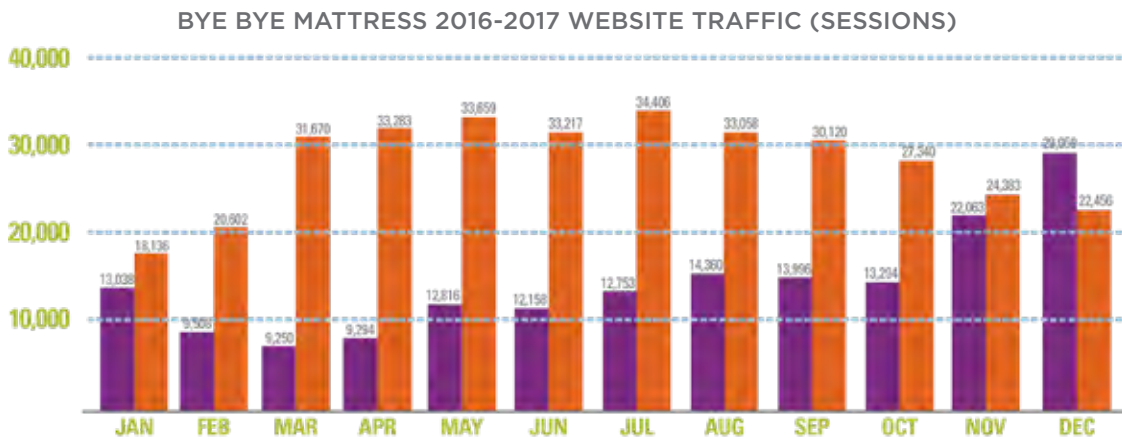

FIGURE 8 GOOGLE ANALYTICS TRAFFIC JANUARY 2016 - DECEMBER 2017

■ 2016 ■ 2017

2. CONSUMER EDUCATION MATERIALS

MRC provides retailers with free point-of-sale materials to help them explain the Program and the charge to their customers. Those materials include an information card, in-store posters, and a Frequently Asked Questions (FAQ) document. MRC uses a monthly e-newsletter, e-mail notifications, industry publications, and events to regularly inform retailers that these materials are available from MRC and reorders are free.

In 2017, MRC distributed approximately 500,000 cards and 1,600 posters in California. Retailers also access artwork files they can download and print on-demand.

Bi-Lingual Informational Card:

The card can accompany the consumer's invoice or receipt, and explains the purpose of the Program and the charge. A Spanish translation is on the reverse.

In-Store Posters:

Rest easy and know that your old mattress is going to a better place.

As of January 1, 2016, the state of California has implemented a mattress recycling program. A \$11 recycling fee will be collected on every mattress and box spring you purchase. It will be listed on your receipt as "recycling fee."

Learn more about the fee and how the program works at byebye mattress.com
A Program of the Mattress Recycling Council

IN-STORE POSTER

MRC makes the posters available in three sizes to provide flexibility in how a retailer may use them in the store.

INFO CARDS

Consumer FAQs: The consumer FAQs are provided in English and Spanish to assist retailers with sales associate training. These are also available to the public on ByeByeMattress.com on the “FAQs” page.

bye bye mattress
A Division of The Home Depot Retail Group

ANTICIPATED CONSUMER QUESTIONS

- Why do I have to pay the fee and what does it pay for?
- Who is the Mattress Recycling Council?
- If I don't plan to throw a mattress away, why do I have to pay this fee?
- If I decide to take my old mattress to a recycler myself, do I still pay the fee?
- I didn't pay the fee on my old mattress, so will it be accepted for recycling?
- You didn't take back my old mattress because you deemed it unacceptable. Can you refund my recycling fee?
- What are the benefits of mattress recycling?
- How do I have this new program, what happens to my old mattress to bed going?

Why do I have to pay the fee and what does it pay for?
The state law requires retailers to collect a recycling fee on each mattress and box spring that is sold. The state approved the amount of the fee, which is not set or controlled by individual retailers.

The fee funds the state's recycling program, which is administered by the Mattress Recycling Council. Visit www.byebyemattress.com to learn more or contact the Mattress Recycling Council at the information provided with your receipt.

Who is the Mattress Recycling Council?
The Mattress Recycling Council is a nonprofit organization that operates mattress recycling programs in states that have passed mattress recycling laws.

Our state's mattress recycling program is similar to the recycling programs that a number of states have for other products like cars, tires, carpet and batteries.

Visit www.byebyemattress.com to learn more or contact the Mattress Recycling Council at the information provided with your receipt.

If I don't plan to throw a mattress away, why do I have to pay this fee?
The state law requires retailers to collect this fee on any mattress and box spring sale to fund the state's mattress recycling program.

Even if you aren't throwing a mattress away, a mattress doesn't last forever, and will eventually be discarded. The program creates a network of participating cities, towns, retailers, recyclers and other organizations that you may rely on when that time comes to properly recycle your old mattress.

Visit www.byebyemattress.com to learn more or contact the Mattress Recycling Council at the information provided with your receipt.

CUSTOMER FAQs

If I decide to take my old mattress to a recycler myself, do I still pay the fee?
Yes, state law requires retailers to collect this fee on any mattress and box spring sale to fund the state's mattress recycling program.

You may receive a modest financial incentive if you drop off your used mattress or box spring at a designated recycling location. Visit www.byebyemattress.com to find the location nearest you.

I didn't pay this fee on my old mattress, so will it be accepted for recycling?
No, mattresses that are taken back from our customers are recycled through the state's mattress recycling program regardless of when they were purchased. Visit www.byebyemattress.com for more information.

You didn't take back my old mattress because you deemed it unacceptable. Can you refund my recycling fee?
No, state law requires retailers to collect this fee on any mattress and box spring sale to fund the state's mattress recycling program. The law does not force retailers to accept every mattress for recycling out of concern for employer health and safety. Our store's policy in addition to the recycling program's guidelines determines what we will and won't accept.

If my mattress is unacceptable for recycling, contact your city or town to learn what disposal options are available.

What are the benefits of mattress recycling?
More than 90 percent of a mattress can be recycled and made into a new product. Recycling provides a number of important benefits:

- Conserves resources by creating steel, foam and other materials available for use in new products
- Reduces reliance on landfills and benefits by diverting mattresses from the waste stream
- Reduces the number of illegally dumped mattresses
- Creates recycling jobs

Visit www.byebyemattress.com to learn more about mattress recycling.

Now that we have this new program, what happens to my old mattress or box spring?
Recyclers dismantle old mattresses and/or box springs, separate the steel, foam, fabric and wood, and sell these materials to manufacturers that will use them to make new products. Visit www.byebyemattress.com to learn more about mattress recycling.

In 2017, MRC revised its consumer education materials based on retailer feedback. Revisions included adding information about the retailer take-back obligation and a notice that the recycling charge would decrease effective January 1, 2018.

**Rest Easy!
Your Old Mattress Can
Be Recycled.**

Drop it off at a nearby location or ask your retailer about taking it back.

Are you having your new mattress delivered?
We can recycle your old mattress for you. Just ask your retailer to take back your old mattress. We'll take care of the rest.

Visit ByeByeMattress.com to learn more.

byebye, mattress.

That recycling fee supports a statewide mattress recycling program.

The recycling fee listed on your receipt, which is required by law for each mattress and box spring sold, supports the statewide mattress recycling program known as the Bye Bye Mattress.

The Program allows any mattress or box spring, regardless of date of purchase, to be dropped off at no-cost at a participating collection location, event or recycling facility.

Retailers may also use the Program. If you're having a new mattress delivered, ask them to take back your old one. The fees they may charge for delivery or set-up will still apply.

When mattresses and box springs are recycled they are dismantled. The steel, foam, fiber and wood become other products such as carpet padding or industrial fibers.

Find your nearest drop-off location or learn more about the fee and how the Program works at

Or contact us at info@byebyemattress.com or 1-855-785-9973

3. PUBLIC SERVICE ANNOUNCEMENT CAMPAIGN

MRC's PSA campaigns consist of TV, radio, print, and outdoor ads. MRC targets its placement of PSAs in areas where regional collection and recycling facilities have capacity to process more mattresses. In 2017, MRC created and produced two video PSAs. The first, called "Sandman," featured the mythical character who brings sweet dreams and helps consumers rest easy, now that they know how to recycle their lumpy, old mattress. The second, called "Dead

Bed," was a Halloween-themed ad featuring an old bed at a graveyard that didn't want to get buried. Cumulatively these two PSAs earned approximately \$159,000 in free advertising in 2017, and are expected to generate additional exposure for the Program when we run them in future years. Los Angeles, San Francisco, and Sacramento ranked as the top markets for these PSAs.

FIGURE 9 2017 URBAN AND RURAL PARTICIPATION IN MRC'S ILLEGALLY DUMPED MATTRESS COLLECTION INITIATIVE

These campaigns create a general awareness of the Program and the benefits of mattress recycling. Key messages include that mattress materials can be recycled, MRC provides free drop-off locations throughout the state, and consumers may visit ByeByeMattress.com for details.

Given the support that California media showed for MRC's 2017 PSA campaign, MRC developed and produced a new PSA video in 2018 targeted at combating illegal mattress dumping that is designed to allow California cities and counties to co-brand the message.

4. PAID ADVERTISING CAMPAIGN

MRC supplemented its other media efforts with paid television, radio, and print ads placed in markets with well-established mattress collection sites. These campaigns typically ran in the Spring and Fall and coincided

with holiday weekends when retailers sell large volumes of mattresses. The print and radio ads were targeted at households within a five-mile radius of collection sites and recycling facilities. The media mix in MRC's three targeted markets is provided below:

Throughout the year, MRC targeted smaller local advertising campaigns to promote mattress collection events or permanent collection locations. This included using a mix of print, outdoor, and radio in the following markets:

- Alameda County/City of Oakland
- Alturas & Modoc Counties
- Del Norte County
- City of Elk Grove
- Santa Clara & Sonoma Counties
- City of Santa Cruz
- City of Weaverville

In 2018, MRC will launch a paid campaign to drive awareness of the retailer take-back requirement.

5. ONLINE ADVERTISING

In 2017, MRC purchased geographically targeted online advertising using a combination of a Google AdWords Grant (which Google offers free to qualified non-profits) and paid ads. Cumulatively, these ads garnered over 818,000 impressions and achieved a click through rate of nearly 13%. Typical online paid ads average a 2% click through rate. MRC's ads are prompted when a user conducts a web-search for "mattress recycling," "disposal," or "junk removal" and directs them to the recycling locator. The Google AdWords Grant provided text-only ads for keywords that cost \$2 per click or less. The paid Google advertising included images and different keywords that were not accessible through the grant program.

MRC added paid display advertising to its marketing strategy because online searching is a critical step in understanding that mattress recycling is available in California. In 2018, MRC will pursue additional efforts to leverage its use of Google AdWords and display advertising to promote awareness of the Program and to increase the volume of mattresses recycled.

6. COMMUNITY EVENTS

In 2017, MRC launched a community booth tour with an interactive display to raise awareness of the Program and educate the public about the benefits of mattress recycling. Over the course of four months, MRC exhibited at the following large-scale community events:

- The Santa Barbara Earth Day Festival
- Santa Maria Strawberry Festival
- Fresno Spring Fair
- Foster City Chamber CityFEST
- Cypress Community Festival
- OC Fair
- Anaheim Home & Garden Show

The booth consisted of various games that reinforced key messages, such as which parts of a mattress are recycled, how those components can be used to make new products, and how visitors can recycle with Bye Bye Mattress. Both ambassadors invited visitors to inspect samples of mattress components, take

a recycling pledge, and commemorate their visit with a photo opportunity.

The selected events were attended by over 200,000 people and gave MRC the opportunity to engage with a wide range of audiences and demographics. At least one member of the booth ambassador team was fluent in Spanish and the recycling pledge survey was available in Spanish, English, and Chinese. The booth visitors generally provided positive comments about the Program, confirmed they had seen or heard MRC's ads, or expressed satisfaction with recently using Bye Bye Mattress to recycle.

Given the success of these events, MRC will continue to support similar community events and festivals for the foreseeable future.

7. MEDIA RELATIONS

MRC's media relations activities in 2017 generated press coverage equivalent to approximately \$500,000 in advertising value. Major announcements included:

Million Mattress Milestone: In January 2017, MRC announced the collection of its one millionth mattress in conjunction with the Las Vegas Winter Market - a major mattress industry event. A press release and social media content generated nearly 50 million impressions and coverage across consumer and industry media.

2016 Annual Report: MRC announced the release of its California Annual Report. News of the Program's initial year accomplishments garnered 200,000 impressions in print and online sources in both consumer and industry media.

8. COLLECTION SITE AND EVENT TOOLKITS

To promote collection sites, MRC provided municipalities with a template news release and suggested content that they could use to publicize their participation in the Program through online and social media outlets. The template allows municipalities to customize community messaging, by including hours of operations, directions, and residency restrictions. They may also use suggested content on city websites, community newsletters, and social media. MRC also provides event hosts with a media alert template, flyer template, event day signage kit, and suggested social/online content.

Click Below To View

COLLECTION SITE AND EVENT TOOLKITS

<https://dl.orangedox.com/CollectionEventToolkit>

<https://dl.orangedox.com/CollectionSiteToolkit>

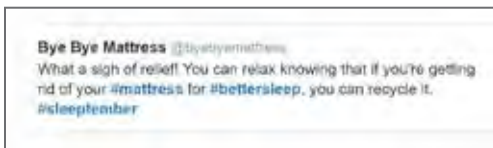

9. SOCIAL MEDIA

Bye Bye Mattress uses Twitter and Facebook with content shared on MRC's social media channels. However, building followers is a challenge since mattress disposal is not an ongoing activity for consumers. The average life-span of a mattress is 10 years and many consumers discard an old mattress only when they buy a new one.

Having a daily news feed of engaging and relevant information is important for maintaining a presence on both Twitter and Facebook. To date, MRC has found social media useful in announcing community collection events, promoting new collection sites, and pointing visitors to ByeByeMattress.com for additional information.

By the end of 2017, Bye Bye Mattress earned over 1 million impressions on Twitter and Facebook. In 2017, MRC expanded its online marketing to include boosting posts and advertising new sites and collection events on Facebook.

FOLLOW & LIKE
@BYEBYEMATTRESS

PUBLIC EDUCATION CAMPAIGN EVALUATION & CONSUMER AWARENESS SURVEY

In 2017, MRC completed a two-year education plan designed to generate public awareness of mattress recycling, its benefits, and recycling opportunities in the state. To assess the plan's effectiveness, MRC in 2018 commissioned an independent consumer awareness survey that measured the impact of its messages. Some of the most important key performance metrics included whether consumers were aware a mattress could be recycled, that a state law made it possible to recycle for free, and how to dispose of a mattress so that it could be recycled. The results showed that MRC's efforts continue to increase consumer awareness in each of these areas and the increase is statistically significant. Following the Spring 2018 ad campaigns, consumer awareness of mattress recycling reached 60%.

B. INDUSTRY COMMUNICATIONS

To inform retailers, manufacturers, renovators, and other industry stakeholders about the law and their obligations under the law, as well as to encourage participation in the Program, MRC works with CalRecycle and uses direct mail, phone calls, websites (MattressRecyclingCouncil.org and MRCreporting.org), industry events, industry media relations, and social media.

1. COMPLIANCE OUTREACH

Prior to launching the Program in December 2015, MRC compiled a database listing mattress retailers, producers, and renovators that may need to register and participate in the Program. MRC compiled this database from a variety of sources, including the California Bureau of Electronic & Appliance Repair, Home Furnishing and Thermal Insulation (BEARHFTI), industry publication subscriber lists, Yellow Pages, chambers of commerce, the Better Business Bureau, online searches, and other sources.

MRC continues to monitor these sources for non-compliant parties and new entrants into the mattress sector. When MRC identifies a party that may need to register and participate in the Program, MRC contacts the party, informs it of its potential obligations, and follows up with a phone call or email. This outreach process continues until the party registers or explains why it is not obligated to participate. MRC also actively monitors whether

retailers and other sellers are submitting their monthly reports and remitting the charges they collect by the relevant deadlines. When parties miss a deadline, MRC contacts them by email, phone, and certified mail. In particularly egregious cases, MRC will involve a collections agency and legal counsel, and will refer matters to CalRecycle for action. MRC also has the authority to collect late fees and impose fines for noncompliance.

In 2017, MRC sought CalRecycle's assistance with nearly 200 parties that MRC staff had identified as potentially manufacturing or selling mattresses in California, but either were unresponsive to MRC's efforts or expressly refused to register with MRC. By the end of the year 90% of those entities either registered with MRC or demonstrated that they were not obligated to do so. CalRecycle also randomly selected retailers and renovators to inspect and determine whether they were meeting their obligations. For example, CalRecycle inspectors confirm whether the party is registered with MRC, is collecting the correct charge from purchasers, is properly remitting those charges to MRC, and is complying with the take-back requirement. The inspectors also verify whether the products being offered for sale are produced by manufacturers registered with MRC.

Throughout 2017, MRC provided monthly lists of registered manufacturers, renovators, and brands/URNs to CalRecycle for posting on the Mattress Product Management

webpage (<http://www.calrecycle.ca.gov/mattresses/>). **Appendix A** contains a complete list of retailers, manufacturers, renovators, and brands through May 15, 2018.

MRC and CalRecycle also meet monthly to discuss compliance and enforcement activities and share information.

2. WEBSITES

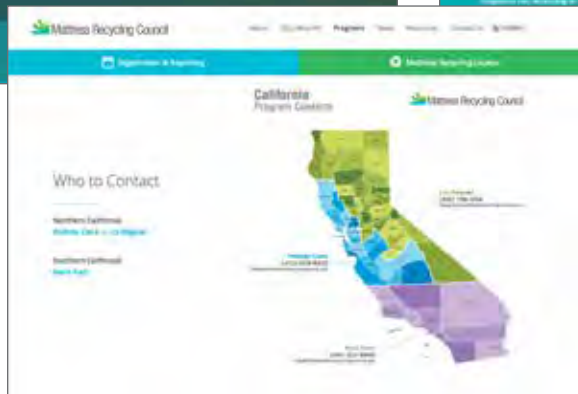

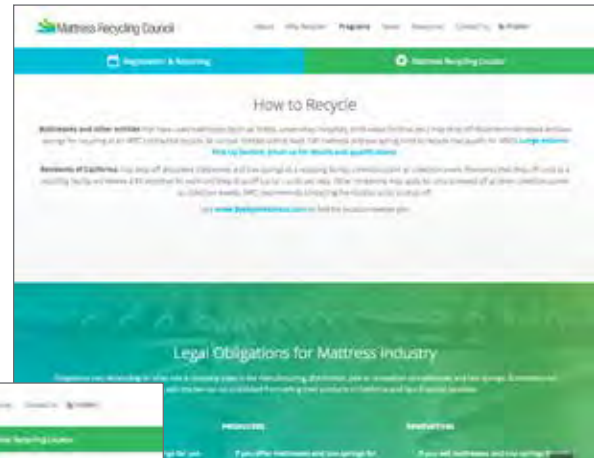

MattressRecyclingCouncil.org:

Designed for use by the mattress industry, regulators, and non-consumer stakeholders, this website attracted more than 42,000 visitors in 2017. The site contains Program information, copies of recent MRC notices, resources, and hyperlinks to ByeByeMattress.com and to MRC's registration and payment portal (MRCReporting.org).

All MRC announcements are posted on the homepage and archived in the news area.

The California state page links to information specific to California's Program. From this page:

- stakeholders may read the Used Mattress Recovery & Recycling Act and information about the Program including the approved Plan and current Annual Report
- solid waste facilities and other eligible entities may request to become collection sites or event hosts
- retailers and other entities may request to participate in the Program's recycling services

MATTRESSRECYCLINGCOUNCIL.ORG
AS OF JAN. 24, 2017

- retailers, producers, and renovators may link to MRC’s reporting and remittance portal or CalRecycle’s Mattress Product Management webpage
- retailers, producers, and renovators can learn about their legal obligations under the Program
- site visitors can learn about MRC’s initiative to compensate participating local governments, solid waste facilities, or solid waste operations for managing illegally dumped mattresses
- stakeholders may sign up to receive MRC’s monthly program updates

The website also contains a resources library with links and information about MRC’s reporting and payment portal, consumer education materials, collection site guidelines, and information sheets about recycling options for different groups of entities (e.g., transfer stations, retailers, lodging establishments, etc.).

In January 2017, MRC redesigned its website to make it more functional for visitors and improve the user experience on mobile devices and tablets.

MRCReporting.org: Parties may register with MRC, and retailers and other parties that sell mattresses to end-users in California may report and remit the recycling charges that they have collected to MRC through this website. To encourage participants to remit their charges on time, the site emails automatic reminders. The site also e-mails Program updates to all registrants, and cross-posts notices and information that also appear on MattressRecyclingCouncil.org.

In 2017, MRC also used the site to inform California registrants how to order consumer education materials, that the charge would decrease in 2018, and that renovators must file annual reports with CalRecycle.

MRCREPORTING.ORG

3. VIDEO SERIES

MRC wants participants (and potential participants) to understand the Program and the mechanics of registering with MRC, submitting monthly reports, and remitting charges. To inform target audiences about the Program, MRC actively encourages participants to view the following short online videos, which are accessible on MattressRecyclingCouncil.org and on MRC's YouTube channel:

- **About the Mattress Recycling Council:** Provides an overview of state recycling laws, the recycling charge and what it pays for, and encourages stakeholders to recycle with MRC.
- **How to Register on MRCReporting.org:** Provides a step-by-step guide to help manufacturers, retailers, and others understand if they must register with MRC, and if so, how to complete that process.
- **Reporting & Remitting Your Recycling Charges:** Explains how mattress manufacturers and retailers can use the online portal to report and remit collected recycling charges.

MRC also uses these videos, which it updates annually, in presentations to industry groups and in MRC's tradeshow booths.

4. INDUSTRY EVENTS

In 2017, MRC participated in the following industry events:

- ISPA Industry Conference (odd years)
- Las Vegas Market (held each winter and summer)
- Southern California Furniture Market (annual)
- Home Furnishings Association Networking Conference (annual)

During the Winter and Summer 2017 Las Vegas Markets, MRC exhibited in the Home Furnishing Association's Retailer Resource Center. MRC staff answered retailers' registration, reporting, payment, and recycling questions. At the Winter Market, MRC celebrated the One Millionth Mattress Milestone with a press conference. At the Summer Market, MRC promoted an industry survey to gauge feedback about MRC's customer service.

In March 2017, MRC exhibited at ISPA's Industry Conference, and answered visitors' questions about the Program's progress, research and development opportunities, and how to recycle in their state.

In May 2017, MRC exhibited at the final Home Furnishings Association Networking Conference. Booth visitors were invited to complete MRC's industry survey, and MRC answered retailers' registration, reporting, payment, and recycling questions. (HFA has replaced this event with a new conference called HFA Insights. MRC is evaluating whether to participate in the new event.)

In November 2017, MRC exhibited in the Southern California Furniture Market. It visited with local mattress and furniture retailers and distributors, and answered questions about registration, reporting, payment, and recycling.

MRC continues to attend ISPA, HFA and Las Vegas Market events to reach the bedding industry.

5. PROGRAM UPDATE MONTHLY E-NEWSLETTER

MRC e-mails a monthly newsletter free of charge to over 2,300 recipients, including all registered retailers, renovators, manufacturers, collection site hosts, and other stakeholders that subscribe to the newsletter. MRC's newsletter averages a 40% open rate, which, according to research conducted by Constant Contact, is nearly double the average 21% open rate for e-mails originating from non-profit sources.

Content includes upcoming reporting deadlines, how to order consumer education materials, and where to recycle mattresses. Other content focuses on Program results, MRC announcements, MRC's efforts to collect data on and address the problem of illegally dumped mattresses, and information about participant's obligations.

MRC NEWS: Holiday Hours
 Due to the holiday, MRC's reporting and technical support will be unavailable July 3 and MRC's customer service support will be unavailable July 3-4.
 All inquiries will be answered immediately upon our return.

MATTRESS INDUSTRY: MRC Launches Survey
 MRC has launched an industry survey. Your feedback is important for improving our customer service and communications. The survey is short and will only take a few minutes. Please take a few minutes today to complete the survey.
We have 5 questions for you.
 Visit an all Summer Las Vegas Market July 30-Aug. 3 at the Las Vegas Convention Center. By participating in the survey at Market, you will be entered to win a \$100 gift card. Be sure to stay for! Winners will be selected at Market on Monday and Wednesday.
 Or go online here:
 We are powering responses through August 12.

IN THE COMMUNITY: MRC's PSA is Now Airing
 Our latest PSA is now airing and it builds awareness of our Eye for the Mattress program in our TV and radio spots. Good news is increasing the public about how they can find their nearest recycling location.
 Help spread the word, ask your local media to run our PSA. This will drive volume to collection sites and collection events keeping

 In the meantime, if you need to order more materials, please complete this form.

IN THE COMMUNITY: Mattress Disposal Doesn't Have to be a Nightmare!
 We've developed a seasonal PSA (Dead Bed) for use through October 1, which encourages finding the nearest free collection site and getting the nightmare of figuring out what to do with an old mattress.
 Ask your local media to use our TV, radio or print ads. This will help drive volume to collection sites and collection events which ultimately takes mattresses out of landfills and reduces illegal dumping.

FOR CA PROGRAM: CalRecycle's Reporting Deadline Passed May 1
 CalRecycle reported MRC share the following announcements with collection sites, retailers and remediators involved with California's program:
The Used Mattress Recovery and Recycling Act: Reporting Requirement and Notice of May 1, 2017 Due Date
 This statutory deadline for submitting the 2016 Annual Report from recyclers, processors, and end users remains to the Department of Resources Recycling and Recovery (CalRecycle) was May 1, 2017. This reporting requirement applies to all facilities as defined in [Public Resource Code \(PRC\) § 42386](#) regardless of whether or not they complied with the [Mattress Recycling Council \(MRC\)](#). Please refer to [California Resource Code \(PRC\) § 42391](#) and [California Code of Regulations \(CCR\) Title 24, §§ 18963, 18967](#) for the specific reporting requirements.
 Access to CalRecycle's online Mattress Recycling and Recovery Program reporting database is located here: <https://secure.ca-recycle.ca.gov/MRRProgramData>. If you

7. SOCIAL MEDIA

Having a regular feed of news is important to remaining relevant on social media. MRC uses Twitter, Facebook, LinkedIn, and YouTube. Collectively, MRC has more than 650 followers on social media, comprised of a mix of individuals, civic/environmental groups, retailers, local and state government, waste haulers, and recyclers. In 2017, MRC's Facebook and Twitter received over 28,000 impressions.

In addition to sharing Bye Bye Mattress content, MRC uses its social media accounts to announce Program developments, promote MRC's presence at industry events, distribute marketing collateral, interact with industry stakeholders, and monitor industry news. #FAQFriday also draws attention to frequently asked questions about recycling and registration, as well as collecting the charge, reporting, and remitting.

MRC will continue to use social media and will evaluate its effectiveness in driving traffic to MRCreporting.org, MattressRecyclingCouncil.org, and ByeByeMattress.com.

CALRECYCLE REGULATIONS

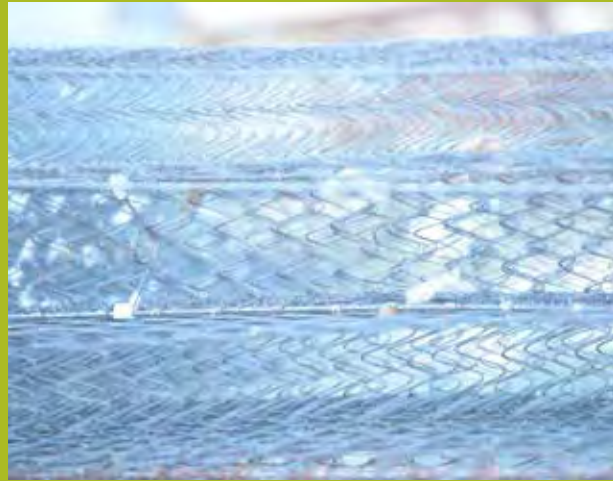

14 CCR §18964(b)(11) – The annual report shall include an independent financial audit of the used mattress recovery and recycling program funded from the mattress recycling charge. The audit shall be conducted in accordance with auditing standards generally accepted in the United States of America, and standards set forth in Government Auditing Standards issued by the Controller General of the United States. The financial audit submitted to the department shall be prepared by an Independent Certified Public Accountant (CPA). The CPA shall not perform non-audit services for the mattress recycling organization that would impair independence as defined in the Government Auditing Standards issued by the Controller General of the United States (e.g., accounting services, development of internal controls, management decisions). The independent financial audit shall include:

- A.** Mattress recycling program financial statements, as required by GAAP.
- B.** An opinion on the mattress recycling organization’s compliance with the financial aspects of Chapter 21 (commencing with section 42985), Part 3, Division 30 of the Public Resources Code and Title 14, Division 7, Chapter 11, Article 3 of the California Code of Regulations.
- C.** Findings and recommendations as they relate to the financial aspects of the program.
- D.** Management Letter, if issued, by the mattress recycling organization’s CPA.

AUDITS

14 CCR §18964(B)(11)

SEE APPENDIX E

CALRECYCLE REGULATIONS

14 CCR § 18964(b)(12) – Advisory Committee Report.
The annual report shall include the report of the advisory committee required by subdivision (k) of section 42990.1 of the Public Resources Code. The mattress recycling organization’s annual report may include a description of how it addressed the points or recommendations raised in the advisory committee report.

About the Mattress Recycling Council

In 2013, California enacted Senate Bill 254, later amended by Senate Bill 1274, which requires mattress manufacturers to create a recycling program for mattresses discarded in the state. The Mattress Recycling Council (MRC) is the non-profit organization established by the mattress industry to develop and operate the California mattress recycling program. The Program began December 30, 2015.

MRC has contracted with service providers to transport and recycle mattresses and box-springs from collection sites throughout the state. For simplicity, we will refer to both mattresses and box-springs as just mattresses. These Guidelines describe the Program and what your facility needs to do to participate. MRC reserves the right to update, change, modify, amend, add or remove terms, or otherwise alter these Guidelines at any time with or without prior notice.

What MRC Provides

Staff at all participating collection sites must be knowledgeable regarding these Guidelines before accepting mattresses.

MRC provides the following to participating solid waste facilities:

- A collection container to store mattresses that is appropriate for the number of mattresses that the collection site expects to generate and the site's available space
- Transportation from the solid waste facility to a contracted recycler
- No-cost mattress recycling services

PROGRAM MATERIALS

ACCEPTABLE

Only mattresses used and discarded in California can be accepted by the Program. The pictures below exemplify mattresses that are acceptable by the program.

A participating collection site may not charge for mattresses that are dropped off by individuals at its site and recycled through the Program.

UNACCEPTABLE

- Out-of-state mattresses
- Severely damaged, twisted, wet, frozen or soiled mattresses
- Mattresses infested with bed bugs or other living organisms
- Sleeping bags
- Pillows and cushions
- Loose bedding, blankets or sheets
- Car beds
- Juvenile products, i.e., a carriage, basket, dressing table, stroller, playpen, infant carrier, lounge pad, or crib bumper
- Water beds
- Camping air mattresses
- Fold-out sofa beds
- Futons and furniture
- Loose mattress pads and toppers

Mattress Inspection and Examination

Facility staff should screen incoming mattresses to determine whether they are suitable for recycling and should remove mattresses that are:

- Excessively wet or frozen
- Severely twisted, punctured or crushed
- Infested with bed bugs or other living organisms
- Exceptionally soiled or moldy

Mattresses not suitable for recycling should be disposed of through your existing solid waste stream.

Bed Bug Identification

Mattresses and box springs infested with bed bugs are unacceptable for recycling and should be disposed of through your existing solid waste stream. Staff at collection sites should evaluate program materials for evidence of bed bug infestation.

Bed bugs are tan to brown in color, but may appear redder if they have fed.

Adult Bed Bugs are dorsally flat insects, broadly oval, and the size of an apple or melon seed (1/4").

Nymphs look like adults in shape but are smaller.

Eggs are white and barrel shaped.

Signs of bed bug activity may be more obvious than the insects themselves. Look for clusters of dark spots or smudges on mattresses (fecal spots), especially along seams. Eggs, shed skins, and all life stages of bed bugs may also be present in these 'soiled' areas.

For more information on bed bugs, please refer to the resources made possible by the Connecticut Coalition Against Bed Bugs at www.ct.gov/caes/CCABB

MATERIALS COLLECTION & HANDLING

Each collection site will have unique operational considerations. Participating facilities must make their own decisions about how to best manage their operations in the safest manner possible in accordance with applicable laws. At a minimum, each participating site must meet these requirements:

MINIMUM PROGRAM REQUIREMENTS	
SITE	Each collection site must be secure with adequate space and staffing to handle and store acceptable mattresses.
PERMITS	Each collection site must have knowledge of, and comply with all applicable federal, state and local laws. These may include, but are not limited to, zoning requirements, state permit requirements, and OSHA or other workplace requirements. Please contact your Local Enforcement Agency (LEA) to confirm whether your site is in compliance with all applicable notifications or requirements for accepting mattresses for recycling at your site. In many cases, this will be your County or local Public Health Department.
INSURANCE	Each collection site must maintain general liability insurance of at least \$1,000,000 per occurrence.
TRAINING	Staff at each collection site must be trained and knowledgeable regarding these Guidelines before accepting mattresses for recycling.
STORING & LOADING MATTRESSES <i>See page 6 for photos and guidelines</i>	<p>Collection sites must keep mattress dry by storing in weather proof containers, or under cover, to maximize their recyclability. In addition, all collection sites must:</p> <ul style="list-style-type: none"> • Make every effort to place mattresses in MRC-designated storage containers immediately upon acceptance • Keep mattresses intact and not intentionally crush or puncture them • Efficiently stack mattresses to maximize the number of units loaded in each storage container • Provide oversight to keep unacceptable items out of MRC-designated storage containers • Remove any non-program materials from MRC-designated storage containers before transport to MRC recyclers • Practice good housekeeping standards, and keep storage containers and program materials in a neat and orderly condition

SITE ACCESS

Collection sites must allow MRC access to confirm compliance with these Guidelines.

Loading Mattresses in Storage Containers

Container Type	Number of Mattresses
20-foot sea container	25-40
30-yard roll-off container	25-35
40-yard roll-off container	25-40
48-foot trailer	110-180
53-foot trailer	125-190

Expected number of mattresses that should fit in various container sizes

Mattresses and box springs must be packed as efficiently as possible to maximize the number of units in each container.

TRANSPORTATION AND RECYCLING

Transporters

MRC will assign each collection site a transporter to provide a storage container and transport services.

- MRC contracted transporters will provide participating locations with evidence of automobile insurance coverage of at least \$1,000,000 per occurrence
- Each collection site must notify transporter at least 2 business days before a storage container is full of mattresses
- The assigned transporter will pick up full containers and drop off an empty container at the same time
- On the scheduled pick up day, the collection site must make the collection container readily accessible to the transporter
- At the time of pick-up, collection site staff must be present to sign a three-part Bill of Lading (BOL) supplied by the transporter that details the quantity of mattresses in the container, and must provide appropriate copies of the BOL to the transporter.

A collection site may choose to provide its own storage containers and transportation at its own cost. These locations must contact the recycler directly to arrange for a convenient drop-off time.

Recyclers

Recyclers under contract with MRC will meet established recycling standards and accurately account for all mattresses it receives, the mattress components it recycles (e.g., foam, steel, wood, fiber, etc.), and any residual disposal. Solid waste facilities will be assigned a recycler by MRC to best service your facility.

PROGRAM WITHDRAWAL & TERMINATION

A collection site's participation in the California mattress recycling program is voluntary. Either party may withdraw from participation with 30 days' notice to the other party. MRC reserves the right to remove any collection site not in compliance with these Guidelines from further participation in the Program.

RECORDKEEPING

Bill of Lading:

A Bill of Lading (BOL) will be provided by the transporter. Before a full container leaves the site, the BOL must be completed and signed by facility staff. Following is a sample BOL and required information:

BILL OF LADING
Unique BOL #: pre-printed #

Date: _____

APPENDIX D: EDUCATION AND OUTREACH EXAMPLES

IN-STORE POSTERS

Rest easy and know that your old mattress is going to a better place.

As of January 1, 2016, the state of California has implemented a mattress recycling program. A \$11 recycling fee will be collected on every mattress and box spring you purchase. It will be listed on your receipt as "recycling fee."

Learn more about the fee and how the program works at
 **bye bye mattress.com**
A Program of the Mattress Recycling Council

INFO CARDS

bye bye, mattress.

Thank you for helping us say hello to a greener future.

The recycling fee listed on your receipt, which is required by law for each mattress and box spring sold, funds our state's mattress recycling program.

Recycling a mattress at the end of its life creates other useful products instead of burying its valuable resources in a landfill. So, bye-bye doesn't have to mean forever.

Learn more about the fee and how the program works at

bye bye mattress.com
A Program of the Mattress Recycling Council

bye bye, mattress.

Gracias por ayudarnos a decir hola a un futuro más verde.

El cargo de reciclado mencionado en su recibo, el cual es exigido por la ley por cada colchón y box spring vendidos, financia nuestro programa de reciclado de colchones estatal.

Reciclar un colchón al final de su vida útil permite crear otros productos útiles en vez de enterrar sus valiosos recursos en un vertedero. Así que adiós no tiene que ser para siempre.

Obtenga más información sobre el cargo y vea cómo funciona el programa en

bye bye mattress.com

ANTICIPATED CONSUMER QUESTIONS

- Why do I have to pay the fee and what does it pay for?
- Who is the Mattress Recycling Council?
- If I don't plan to discard a mattress now, why do I have to pay this fee?
- If I decide to take my old mattress to a recycler myself, do I still pay the fee?
- I didn't pay this fee on my old mattress, so will it be accepted for recycling?
- You didn't take back my old mattress because you deemed it unacceptable. Can you refund my recycling fee?
- What are the benefits of mattress recycling?
- Now that we have this new program, what happens to my old mattress or box spring?

Why do I have to pay the fee and what does it pay for?

The state law requires retailers to collect a recycling fee on each mattress and box spring that is sold. The state approved the amount of the fee, which is not set or controlled by individual retailers.

The fee funds the state's recycling program, which is administered by the Mattress Recycling Council. Visit www.byebyemattress.com to learn more or contact the Mattress Recycling Council via the information provided with your receipt.

Who is the Mattress Recycling Council?

The Mattress Recycling Council is a nonprofit organization that operates mattress recycling programs in states that have passed mattress recycling laws.

Our state's mattress recycling program is similar to the recycling programs that a number of states have for other products like paint, tires, carpet and batteries.

Visit www.byebyemattress.com to learn more or contact the Mattress Recycling Council via the information provided with your receipt.

If I don't plan to discard a mattress now, why do I have to pay this fee?

The state law requires retailers to collect this fee on any mattress and box spring sale to fund the state's mattress recycling program.

Even if you aren't discarding a mattress right now, a mattress doesn't last forever, and will eventually be discarded. The program creates a network of participating cities, towns, retailers, recyclers and other organizations that you may rely on when that time comes to properly recycle your old mattress.

Visit www.byebyemattress.com to learn more or contact the Mattress Recycling Council via the information provided with your receipt.

If I decide to take my old mattress to a recycler myself, do I still pay the fee?

Yes, state law requires retailers to collect this fee on any mattress and box spring sale to fund the state's mattress recycling program.

You may receive a modest financial incentive if you drop off your used mattress or box spring at a designated recycling location. Visit www.byebyemattress.com to find the location nearest you.

I didn't pay this fee on my old mattress, so will it be accepted for recycling?

Yes, mattresses that we take back from our customers are recycled through the state's mattress recycling program regardless of when they were purchased. Visit www.byebyemattress.com for more information.

You didn't take back my old mattress because you deemed it unacceptable. Can you refund my recycling fee?

No, state law requires retailers to collect this fee on any mattress and box spring sale to fund the state's mattress recycling program. The law does not force retailers to accept every mattress for recycling out of concern for employee health and safety. Our store's policy in addition to the recycling program's guidelines determines what we will and won't accept.

If your mattress is unacceptable for recycling, contact your city or town to learn what disposal options are available.

What are the benefits of mattress recycling?

More than 90 percent of a mattress can be recycled and made into a new product. Recycling provides a number of important benefits:

- Conserves resources by making used steel, foam and other materials available for use in new products
- Reduces reliance on incinerators and landfills by diverting mattresses from the waste stream
- Reduces the number of illegally dumped mattresses
- Creates recycling jobs

Visit www.byebyemattress.com to learn more about mattress recycling.

Now that we have this new program, what happens to my old mattress or box spring?

Recyclers dismantle old mattresses and/or box springs, separate the steel, foam, fabric and wood, and sell these materials to manufacturers that will use them to make new products. Visit www.byebyemattress.com to learn more about mattress recycling.

 ALL THE MATTRESSES RECYCLED IN CALIFORNIA LAST YEAR?

Answer: The MATTRESSES.
 Nearly a million mattresses were recycled last year in California. That's a huge pile of steel, foam, fiber and wood that will be recycled into new useful things. Drop your mattress off for free at any of our collection points.

There's free mattress recycling near you!
 Visit ByeByeMattress.com for the closest location.

WHAT'S HEAVIER?:
 2,300 ELEPHANTS
 — OR —
 ALL THE MATTRESSES RECYCLED IN CALIFORNIA LAST YEAR?

Answer: The MATTRESSES.
 We saved nearly a million mattresses from landfills last year. That's over 25,000 tons of steel, foam, fiber and wood recycled into new useful things. Drop your mattress off for free at any of our collection sites.

There's free mattress recycling near you!
 Visit ByeByeMattress.com for the closest location.

WHAT DO YOU DO WITH A DEAD BED?

Getting rid of an old mattress shouldn't have to be a nightmare for you - or your customer. In California, Connecticut and Rhode Island the Mattress Recycling Council's Bye Bye Mattress program is providing no-cost recycling to retailers, establishing free community collection points and combating illegal dumping. Let's stop burying mattresses in landfills. Visit byebyemattress.com to find a location nearest you.

BRIDGING STATEMENT MEMO

To the Board of Directors of the
**Mattress Recycling Council -
California LLC**
Alexandria, Virginia

Statement on the Attached Pro Forma Financial Statements

The accompanying pro forma financial statements of the **Mattress Recycling Council California LLC (MRC – CA)**, comprise the audited statement of financial position as of December 31, 2017, and the related pro forma statements of activities for the year then ended. The pro forma statement of activities consists of two six-month audits performed for the 2017 fiscal year. The first audit is for the Mattress Recycling Council – California Recycling Operations division for the six-month period of January 1, 2017 – June 30, 2017. The second audit is for the Mattress Recycling Council California, LLC for the six-month period of July 1, 2017 – December 31, 2017. The combined results of these two audited periods encompass the 2017 fiscal year operations for the MRC – CA. The audited financial statements for each six-month period are attached as Exhibit #1 and #2 to these pro forma statements. These pro forma statements are issued for management’s use and regulatory purposes. They are not intended to be utilized for any other purpose, and do not include a separate auditors’ opinion.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors of the
**Mattress Recycling Council -
California LLC**
Alexandria, Virginia

Report on the Financial Statements

We have audited the accompanying financial statements of the **Mattress Recycling Council – California LLC** (a wholly owned subsidiary of the Mattress Recycling Council), which comprise the statement of financial position as of December 31, 2017, and the related statements of activities and cash flows for the period from inception July 1, 2017 to December 31, 2017, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

(1)

INDEPENDENT AUDITORS' REPORT (continued)

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the **Mattress Recycling Council – California LLC** (a wholly owned subsidiary of the Mattress Recycling Council) as of December 31, 2017, and the changes in its net assets and its cash flows for the initial period then ended in accordance with accounting principles generally accepted in the United States of America.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also used our report dated June 6, 2018, on our consideration of Mattress Recycling Council – California LLC's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report (located on pages 19-20) is an integral part of an audit performed in accordance with Government Auditing Standards in considering Mattress Recycling Council – California LLC's internal control over financial reporting and compliance.

Additional Report on the Audited Financial Statements of Mattress Recycling Council

We have also audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of the Mattress Recycling Council, as of and for the year ended December 31, 2017, and our report thereon dates June 18, 2018, expressed as an unmodified opinion on those financial statements.

**MATTRESS RECYCLING COUNCIL -
CALIFORNIA LLC**

NOTES TO FINANCIAL STATEMENTS

From Inception July 1, 2017 to December 31, 2017

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This summary of significant accounting policies of the **Mattress Recycling Council – California LLC** (“MRC – CA”) is presented to assist in understanding the MRC – CA’s financial statements. The financial statements and notes are representations of the MRC – CA’s management who is responsible for their integrity and objectivity. These accounting policies conform to generally accepted accounting principles and have been consistently applied in the preparation of the financial statements.

Purpose of the California Recycling Operations:

The California (CA) Used Mattress Recovery and Recycling Act (“the Act”) is authorized by Public Resources Code Section 42985 to require manufacturers of mattresses sold in CA to develop, finance, and implement a convenient and cost-effective program to recover and recycle used mattresses generated in CA. The Act is administered by MRC – CA. MRC – CA funds its operations through an \$11 per unit recycling fee collected from consumers when they purchase a mattress or box spring. MRC – CA is required to perform financial statement audit under accounting principles generally accepted in the United States of America and the generally accepted government auditing standards issued by the Comptroller General of the United States of America to satisfy the state of California’s certified audited financial statement requirement in accordance with the State of California Section 42990 of the Public Resources Code.

MRC – CA is one of three operating wholly owned subsidiaries of the Mattress Recycling Council (“MRC”). MRC also operates recycling programs in the states of Connecticut and Rhode Island. The MRC is a not-for-profit corporation incorporated on November 14, 2013 under the laws of the State of Delaware and organized and operated for purposes consistent with recognition of exempt status under Internal Revenue Code Section 501(c)(3), including, without limitation, to work to establish an environmentally sound and cost-effective program for recycling of sleep products. The MRC is a subsidiary (under current accounting standards) of the International Sleep Products Association (“ISPA”) due to common control.

The MRC – CA’s significant accounting policies are as follows:

Basis of Accounting and Separately Stated Financial Statements of MRC – CA:

The financial statements of the MRC – CA have been prepared on the accrual basis of accounting and, accordingly, reflect all significant receivables, advances, prepaid expenses, payables, accruals and other liabilities.

**MATTRESS RECYCLING COUNCIL -
CALIFORNIA LLC**

NOTES TO FINANCIAL STATEMENTS

From Inception July 1, 2017 to December 31, 2017

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

On an annual basis, MRC – CA’s financial statements are included in the consolidated group financial statements of the MRC. These financial statements of the MRC – CA have been issued as a subsidiary of the MRC as of December 31, 2017. MRC – CA’s December 31, 2017 separately stated financial statements will be prepared due to the request of the Board of Directors of MRC and the State of California. See **NOTE J** for related party transaction disclosures.

Basis of Presentation:

As a wholly owned subsidiary of the MRC, a 501(c)(3) not-for-profit organization, the financial statements of the MRC – CA have been presented in accordance with the Financial Accounting Standards Board in its Accounting Standards Codification (ASC) 958 Not-for-Profit Entities (formerly Statement of Financial Accounting Standards (SFAS) No. 117, *Financial Statements of Not-for-Profit Organizations*). Under FASB ASC 958, the MRC – CA is required to report information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets.

ASC Codification:

During June 2009, the FASB issued SFAS No. 168 *"The FASB Accounting Standards Codification (ASC) and the Hierarchy of Generally Accepted Accounting Principles - A Replacement of FASB Statement No. 162,"* (now codified within ASC No. 105, Generally Accepted Accounting Principles (GAAP) (ASC No. 105)). ASC No. 105 establishes the Codification as the single source of authoritative GAAP recognized by the FASB to be applied by nongovernmental entities. All guidance contained in the Codification carries an equal level of authority. Following this statement, FASB will not issue new standards in the form of statements, FASB Staff Positions or Emerging Issues Task Force Abstracts. Instead, it will issue Accounting Standards Updates, which will serve only to: (1) update the Codification; (2) provide background information about the guidance; and (3) provide the bases for conclusions on the change(s) in the Codification. ASC No. 105 is effective for financial statements issued for interim and annual periods ending after September 15, 2009. The adoption of ASC No. 105 did not have any impact on the results of operations or financial position.

**MATTRESS RECYCLING COUNCIL -
CALIFORNIA LLC**

NOTES TO FINANCIAL STATEMENTS

From Inception July 1, 2017 to December 31, 2017

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Income Tax Status:

The MRC is exempt from federal income tax under Section 501(c)(3) of the Internal Revenue Code. However, income from activities not directly related to the MRC's tax-exempt purpose is subject to taxation as unrelated business income. MRC – CA is considered a disregarded entity for federal income tax purposes. MRC – CA's activity and mission are consistent with those of its Parent company, MRC. The subsidiary's financial operations are reported on a consolidated basis with MRC's tax exempt Federal Form 990 filing. Thus, the subsidiary is subject only to state income taxes as a for-profit limited liability company.

The MRC has adopted the authoritative guidance relating to uncertainty in income taxes included in ASC Topic *Income Taxes*. These provisions provide consistent guidance for the accounting for uncertainty in income taxes recognized in an entity's financial statements and prescribe a threshold of "more likely than not" for recognition and de-recognition of tax positions taken or expected to be taken in a tax return. The MRC performed an evaluation of uncertain tax positions for the initial period ended December 31, 2017, and determined that there were no material matters that would require recognition in the financial statements or that may have an effect on its tax-exempt status. As of December 31, 2017, the statute of limitations for the MRC's income tax return for the years ended December 31, 2014, 2015, and 2016 remain open with the Federal, state, and local authorities. It is the MRC's policy to recognize interest and/or penalties related to uncertain tax positions, if any, in income tax expense.

Cash and Cash Equivalents:

For purposes of the statement of cash flows, the MRC – CA considers all unrestricted highly liquid investments with an initial maturity of three months or less to be cash equivalents.

Accounts Receivable:

Accounts receivable are stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible amounts through a charge to earnings and a credit to valuation allowance based on its assessment of the current status of individual accounts. Balances which are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to accounts receivable. The balance of the allowance for doubtful accounts was \$143,370 for the initial period ended December 31, 2017.

**MATTRESS RECYCLING COUNCIL -
CALIFORNIA LLC**

NOTES TO FINANCIAL STATEMENTS

From Inception July 1, 2017 to December 31, 2017

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Revenue Recognition and Deferred Revenue:

Revenue is recognized during the period in which it relates, and income collected in advance is reflected as deferred revenue. Revenue received but not yet recognized is recorded as deferred revenue. The main source of revenue is mattress recycling fee income, which is generally not received in advance.

Property, Equipment, Depreciation and Amortization:

The MRC – CA capitalizes all expenditures for property and equipment in excess of \$1,000. Purchased property and equipment are carried at cost. Depreciation is computed using the straight-line method over the estimated useful lives of the assets.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investments:

The MRC – CA has adopted Accounting Standards Codification (ASC) 958 Not-for-Profit Entities (formerly Statement of Financial Accounting Standards (SFAS) No. 124, *Accounting for Certain Investments Held by Not-for-Profit Organizations*). Under FASB ASC 958-320, investments in marketable equity securities with readily determinable fair values and all investments in marketable debt securities are valued at their fair values in the statement of financial position. Realized and unrealized gains and losses are included in the change in net assets.

**MATTRESS RECYCLING COUNCIL -
CALIFORNIA LLC**

NOTES TO FINANCIAL STATEMENTS

From Inception July 1, 2017 to December 31, 2017

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Functional Allocation of Expenses:

The costs of providing the various programs and other activities have been summarized on a functional basis in the statement of activities. Accordingly, certain costs have been allocated among the programs and supporting services benefited. General and administrative expenses include those expenses that are not directly identifiable with any other specific function but that provide for the overall support of the MRC. The MRC has entered into contracts with related parties and third-party vendors. Total costs are allocated to the respective states on a monthly basis. For the initial period ended December 31, 2017, 90% of the expenses outlined above were allocated to the MRC – CA, which is based on relative state population.

NOTE B - CASH AND CASH EQUIVALENTS – (UNRESTRICTED)

Cash and cash equivalents at December 31, 2017, consisted of the following:

<u>Unrestricted:</u>	<u>12/31/17</u>
Demand deposits	\$ 5,445,480
Money market funds	<u>254,535</u>
Total unrestricted cash and cash equivalents	<u>\$ 5,700,015</u>

NOTE C – INVESTMENTS (BOARD DESIGNATED)

The MRC – CA invests a majority of their funds (approximately 88% as of December 31, 2017) in conservative fixed income products, and the remaining 12% is invested in U.S. and International ETF's and mutual funds. All investments are exposed to various risks, such as market and credit. Due to the level of risk associated with investments and level of uncertainty related to changes in the value of investments, there is always a possibility that changes in risks in the near term could materially affect investment balances and the amounts reported in the financial statements.

Investments at December 31, 2017 are consisted of the following:

	<u>Cost</u>	<u>Fair Value</u>
Board Designated – financial reserve	<u>\$ 30,498,693</u>	<u>\$ 30,573,763</u>

**MATTRESS RECYCLING COUNCIL -
CALIFORNIA LLC**

NOTES TO FINANCIAL STATEMENTS

From Inception July 1, 2017 to December 31, 2017

NOTE C – INVESTMENTS (BOARD DESIGNATED) (continued)

The MRC – CA forecasts the future operating reserve requirement to be 12 months of expenses based on projected 2020 expenses, which will be approximately \$42,000,000 by December 31, 2020. As of December 31, 2017, \$30,573,763 has been recorded as board designated investments (see **NOTE E**).

Investments are composed of the following:

	<u>Cost</u>	<u>Fair Value</u>
U.S. ETF and Equity Securities	\$ 1,634,880	\$ 1,757,084
International ETF and Equity Securities	1,043,407	1,103,607
Fixed Income	26,902,551	26,794,074
Mutual Funds	<u>917,855</u>	<u>918,998</u>
	<u>\$ 30,498,693</u>	<u>\$ 30,573,763</u>

Investment income for the initial period ended December 31, 2017 is comprised of the following:

	<u>12/31/17</u>
Interest and dividend income	\$ 192,293
Realized gain on investments	14,293
Unrealized gain on investments	<u>100,439</u>
Total investment income	<u>\$ 307,025</u>

The combined realized gain and unrealized gain for the six months ended December 31, 2017 amounted to a net gain of \$114,732.

MATTRESS RECYCLING COUNCIL - CALIFORNIA LLC

NOTES TO FINANCIAL STATEMENTS

From Inception July 1, 2017 to December 31, 2017

NOTE D - PROPERTY AND EQUIPMENT

Property and equipment at December 31, 2017 consisted of the following:

	<u>Cost</u>	<u>Depreciation and Amortization Expense</u>	<u>Accumulated Depreciation and Amortization</u>	<u>Net Book Value</u>	<u>Estimated Useful Life (Years)</u>
Computer and office equipment	\$ 18,316	\$ 2,960	\$ 11,726	\$ 6,590	3-5
Furniture	5,314	377	1,290	4,024	7
Software	<u>162,073</u>	<u>48,984</u>	<u>152,025</u>	<u>10,048</u>	3
	<u>\$ 185,703</u>	<u>\$ 52,321</u>	<u>\$ 165,041</u>	<u>\$ 20,662</u>	

NOTE E - NET ASSETS

The MRC – CA has elected to adopt Accounting Standards Codification (ASC) 958 Not-for-Profit Entities (formerly Statement of Financial Accounting Standards (SFAS) No. 117, *Financial Statements of Not-for-Profit Organizations*). Under FASB ASC 958-205, the MRC – CA is required to report information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets. Permanently restricted net assets contain donor-imposed restrictions that require that contributed funds be maintained by the MRC – CA in perpetuity. The MRC – CA has no permanently restricted net assets as of December 31, 2017. Temporarily restricted net assets contain donor-imposed use limits on contributed funds that relate to specific periods of time or specified purposes. The MRC – CA has no temporarily restricted net assets as of December 31, 2017. Unrestricted net assets are funds received that do not include any restriction as to the use by the donor. As of December 31, 2017, the MRC – CA’s total unrestricted net asset balance was \$42,361,873, of which the MRC – CA’s Board designated \$30,573,763 for establishing a financial reserve to operate CA’s recycling program.

NOTE F - SUPPLEMENTAL CASH FLOW STATEMENT DISCLOSURES

Supplemental disclosure of cash flows information:

Cash paid during the initial period ended December 31, 2017 for:

Interest	\$ 0
----------	------

**MATTRESS RECYCLING COUNCIL -
CALIFORNIA LLC**

NOTES TO FINANCIAL STATEMENTS

From Inception July 1, 2017 to December 31, 2017

NOTE G - COMMITMENTS AND CONTINGENCIES

Product Care Association Consulting Fees:

The MRC has outsourced its registration, billing and collection functions to Product Care Association (PCA), a third-party vendor which operates out of Canada. PCA manages the seller registrations, collects and reviews the monthly sales reports from various mattress retailers/sellers, invoices these sellers and collects the fee income on behalf of the MRC. During the initial period ended December 31, 2017, the total expenses incurred related to PCA consulting fees were \$97,331 and MRC – CA proportionate allocation of those expenses were \$87,416, which is included in outside consultants on the statement of activities.

Concentration of Service Provider:

For the initial period ended December 31, 2017, one recycler accounted for approximately 50% of the MRC – CA's total recycling, transportation, and operational costs and 52% of the units recycled. MRC – CA is currently in the process of identifying other recycling service providers to reduce this concentration risk.

NOTE H - CONCENTRATION OF CREDIT RISK

The MRC – CA maintains its cash and cash equivalents balances in three U.S. financial institutions. The balances are insured by the Federal Deposit Insurance Corporation (FDIC) and the Securities Investor Protection Corporation (SIPC). The FDIC insures up to \$250,000 and the SIPC insures up to \$500,000 (including up to \$250,000 for cash) as of December 31, 2017. The MRC – CA's investment firm also maintains additional insurance coverage through an outside insurer which provides excess protection of up to \$400 million per account. At December 31, 2017, the MRC – CA's uninsured cash balance was \$5,274,990 and uninsured investment balance was \$0.

NOTES TO FINANCIAL STATEMENTS

From Inception July 1, 2017 to December 31, 2017

NOTE I - FAIR VALUE OF FINANCIAL INSTRUMENTS

Generally accepted accounting principles define fair value, establish a framework for measuring fair value, and establish a fair value hierarchy that prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

Level 1 – These inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the MRC – CA has the ability to access.

Level 2 – These are inputs (other than quoted prices included within level 1) that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, default rates and other similar data.

Level 3 – These are unobservable inputs for the asset or liability and rely on management’s own assumptions about the assumptions that market participants would use in pricing the asset or liability. The unobservable inputs should be developed based on the best information available in the circumstances and may include the MRC – CA’s own data.

The MRC – CA estimates that the fair value of all financial instruments at December 31, 2017 does not differ materially from the aggregate carrying values of its financial instruments recorded in the accompanying statement of financial position.

**Fair Value Measurements on a Recurring Basis
As of December 31, 2017**

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Investments – financial reserve	30,573,763	0	0	30,573,763
Total	<u>\$ 30,573,763</u>	<u>\$ 0</u>	<u>\$ 0</u>	<u>\$ 30,573,763</u>

NOTES TO FINANCIAL STATEMENTS

From Inception July 1, 2017 to December 31, 2017

NOTE J – RELATED PARTY TRANSACTIONS (MRC-Holdings)

These financial statements include the intra-entity accounts and transactions between the MRC – CA and MRC. The following transactions are included in these separately stated financial statements, but are eliminated in the consolidated MRC financial statements as of December 31, 2017:

Due from MRC – Holdings	\$ 4,412,260
Administrative and management fee expense - MRC	\$ 728,026
Management fund expense - MRC	\$ 76,777

Operating Agreement with MRC:

MRC – CA is required to pay a monthly service/license fee in the amount of \$140,670, which represents the anticipated costs incurred by MRC for administrative and financial staff support services to the LLC plus an administrative charge (management fund fee) equal to 10% of the total monthly fee. For the initial period ended December 31, 2017, the MRC – CA incurred expenses of \$804,803, of which \$728,026 related to this agreement for administrative fees and \$76,777 related to this agreement for management fund fees, and MRC recorded the associated management fee revenue in the same amount. The administrative and management fund fee expense charged by MRC has not been eliminated in these financial statements as of December 31, 2017.

Asset and Liability Transfer to Limited Liability Corporation (LLC):

On July 1, 2017, the MRC made a capital contribution of all of the California Recycling Operations Division's assets, liabilities, and net assets to fund the Mattress Recycling Council – California, LLC (MRC – CA). The newly formed entity is a single member LLC that is a wholly owned subsidiary of the MRC. Total net assets transferred to MRC – CA was \$31,369,082.

CALIFORNIA LLC**

NOTES TO FINANCIAL STATEMENTS

From Inception July 1, 2017 to December 31, 2017

NOTE K - RECENT ACCOUNTING PRONOUNCEMENTS

During August 2016, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2016-14, Not-for-Profit Entities (Topic 958): Presentation of Financial Statements of Not-for-Profit Entities (“ASU 2016-14”). ASU 2016-14 makes improvements to the information provided in the financial statements and accompanying notes of not-for-profit entities. Entities will present on the face of their financial statements two classes of net assets, rather than the three classes currently required. In addition, entities will be required to present expenses by both their natural classification and functional classification, present investment returns net of external and direct internal investment expenses, and provide enhanced disclosures regarding the entity’s available resources and liquidity, among other changes. ASU 2016-14 is effective for annual financial statements issued for fiscal years beginning after December 15, 2017, and for interim periods within fiscal years beginning after December 15, 2018, with early application permitted. The amendments should be applied on a retrospective basis in the year of adoption, with certain limited exceptions in the case of comparative financial statements, with disclosure of the nature of any reclassifications or restatements and their effects, if any, on changes in the net asset classes for each period presented. MRC – CA is currently evaluating the effect that ASU 2016-14 will have on its statement of financial position, statement of activities, and cash flows.

During May 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2014-09, Revenue from Contracts with Customers (Topic 606) ASU No. 2014-09 establishes principles for recognizing revenue upon the transfer of promised goods or services to customers, in an amount that reflects the expected consideration received in exchange for those goods or services. Topic 606 is effective for fiscal years beginning after December 15, 2018, and interim periods within annual periods beginning after December 15, 2019. MRC – CA may elect to apply the guidance earlier, but no earlier than fiscal years beginning after December 15, 2016. The amendments may be applied retrospectively to each prior period presented or retrospectively with the cumulative effect recognized as of the date of initial application. MRC – CA is currently assessing the effect that Topic 606 will have on its results of operations, financial position, and cash flows.

CALIFORNIA LLC**

NOTES TO FINANCIAL STATEMENTS

From Inception July 1, 2017 to December 31, 2017

NOTE L - SUBSEQUENT EVENTS

In preparing the financial statements, the MRC – CA has evaluated events and transactions for potential recognition or disclosure through June 18, 2018, the date the audit report was available to be issued.

California Oversight Audit:

On January 17, 2018, the State of California initiated an audit to assess the oversight of the Mattress Recycling Council (MRC) by the California Department of Resources Recycling and Recovery (CalRecycle) to ensure that MRC – CA is in compliance with the California mattress recycling law (Public Resources Code 42986 et seq.). As of the date of our audit report, the State of California is in the data collection and interview phase. The audit is estimated to be completed by December 31, 2018. The management of MRC – CA believes they are in full compliance with the California Public Resources Code and do not expect the results of the audit to materially impact their operations in the State of California.

Recycling Vendor Changes:

During the fourth quarter of the year ended December 31, 2017, MRC – CA reevaluated aspects of its recycling vendor network in California. MRC – CA negotiated an interim agreement with its largest incumbent recycling vendor to resolve a contract dispute, and asked this vendor and other interested recyclers to submit proposals for providing future recycling services to MRC – CA. In 2018, MRC – CA subsequently contracted with a new recycling vendor and separately entered into a new contract with its largest incumbent vendor. In addition, during the year ended December 31, 2017, two small recycling vendors terminated their contracts with MRC – CA, while other larger recycling vendors under contract with MRC – CA expanded their operations in the state.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the Board of Directors of the
**Mattress Recycling Council -
California LLC**
Alexandria, Virginia

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the **Mattress Recycling Council - California LLC** ("MRC - CA"), a subsidiary of the Mattress Recycling Council (a nonprofit organization), which comprise the statement of financial position as of December 31, 2017, and the related statements of activities and cash flows for the period from inception July 1, 2017 to December 31, 2017, and the related notes to the financial statements, and have issued our report thereon dated June 6, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered MRC - CA's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements. However, we did not use those procedures for the purpose of expressing an opinion on the effectiveness of MRC - CA's internal control. Accordingly, we do not express an opinion on the effectiveness of MRC - CA's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. Two types of deficiencies require disclosure in this audit report. The more serious type of deficiency is called a *material weakness*. This is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. The second type is called a *significant deficiency* which is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

**INDEPENDENT AUDITOR’S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS (continued)**

Compliance and Other Matters

As part of obtaining reasonable assurance about whether MRC – CA’s financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Management’s Response to Prior Year Findings

Management’s responses to the findings identified in our prior year audit are described in the accompanying Summary of Views of Management Concerning Prior Year’s Finding and Corrective Action Plan at Section IV. MRC – CA’s response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the MRC – CA’s internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the organization’s internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Rockville, MD
June 18, 2018

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH THE FINANCIAL ASPECTS OF THE PUBLIC RESOURCES CODE SECTION 42990, AND CHAPTER 21, PART 3, DIVISION 30 OF THE PUBLIC RESOURCES CODE, AND TITLE 14, DIVISION 7, CHAPTER 11, ARTICLE 3 OF THE CALIFORNIA CODE OF REGULATIONS

To the Board of Directors of the
**Mattress Recycling Council -
California LLC**
Alexandria, Virginia

We have examined the Mattress Recycling Council – California LLC’s (“MRC – CA”) Used Mattress Recovery and Recycling Act’s (“the Act”) compliance with the financial aspects of the Public Resources Code Section 42990, and Chapter 21 (commencing with Section 42985), Part 3, Division 30 of the Public Resources Code, and Title 14, Division 7, Chapter 11, Article 3 of the California Code of Regulations for the initial period ended December 31, 2017. Management is responsible for MRC – CA’s compliance with those requirements. Our responsibility is to express an opinion on MRC – CA’s compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we perform the examination to obtain reasonable assurance about whether MRC – CA complied, in all material respects, with the specified requirements of the Act. An examination involves performing procedures to obtain evidence about whether MRC – CA complied with the specific requirements of the Act. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risk of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion. Our examination does not provide a legal determination on MRC – CA’s compliance with specified requirements of the Act.

In our opinion, MRC – CA complied, in all material respects, with the financial requirements of the Public Resources Code Section 42990, and Chapter 21 (commencing with Section 42985), Part 3, Division 30 of the Public Resources Code, and Title 14, Division 7, Chapter 11, Article 3 of the California Code of Regulations, for the initial period ended December 31, 2017.

This report is intended solely for the information and use of MRC – CA’s Board of Directors, management, and the California Department of Resources, Recycling and Recovery, and is not intended to be and should not be used by anyone other than these specified parties.

Lydon Fetterolf Corydon, P.A.

Rockville, MD

**Mattress Recycling Council -
California LLC**

Schedule of Findings
For the Initial Period Ended December 31, 2017

Section I – Summary of Independent Auditors’ Results:

Financial statements

Type of auditor’s report issued: Unmodified

Internal control over financial reporting:

- Material weakness(es) identified? _____ Yes X No

- Significant deficiency(ies) identified that
are not considered to be material weaknesses _____ Yes X No

Noncompliance material to financial statements noted? _____ Yes X No

Section II – Financial Statement Findings – For the initial period ended December 31, 2017:

There were no Financial Statement findings noted during the audit for the initial period ended December 31, 2017.

Section II – Prior Year Financial Statement Findings – For the year ended December 31, 2016:

Finding 2016-01 – Vendor (Recycling Facility) invoiced MRC – CA for amounts outside the scope of the contract:

See December 31, 2016 Mattress Recycling Council's California (CA) Recycling Operations Audited Financial Statements page 24 for detailed description of the prior year's finding 2016-01 criteria, condition, cause, effect, and recommendation. The finding was classified as a significant deficiency.

Section III – Compliance with Financial Aspects of CA’s Public Resource Code:

There were no Compliance Findings with Financial Aspects of CA’s Public Resource Code noted during the audit for the initial period ended December 31, 2017.

Section IV – Summary of View of Management Concerning Prior Year’s Finding and Corrective Action Plan:

Finding 2016-01 – Vendor (Recycling Facility) invoiced MRC – CA for amounts outside the scope of the contract:

Management identified the overpayment within two weeks after making the erroneous payment and took prompt action to resolve the matter. See December 31, 2016 Mattress Recycling Council’s California (CA) Recycling Operations Audited Financial Statements page 26 for detailed description of management’s corrective action plan.

In addition, Management hired an independent auditor in May 2017 to conduct an internal audit of this particular vendor’s recycling operations and internal controls over financial reporting. Based on the results of this internal audit, MRC – CA and the vendor are renegotiating contract terms.

APPENDIX F: ADVISORY COMMITTEE REPORT

California Mattress Advisory Committee

2017 Annual Report to the Mattress Recycling Council

May 30, 2018

Advisory Committee Members

	Name	Stakeholder Group	Organization
1	Rebecca Andreassen	Local Government	Office of Mayor Eric Garcetti, City of Los Angeles
2	Don Franco	Private Sector	Gateway Mattress Co., Inc.
3	David Goldstein	Local Government	Ventura County
4	Rebecca Jewell	Interested Party	Private Consultant, Waste Management & Recycling
5	Doug Kobold	Local Government	Sacramento County
6	Kelly McBee	Environmental Community	Californians Against Waste
7	Terry McDonald	Private Sector	St. Vincent de Paul Society of Lane Co., Inc.
8	Robert McGowan	Interested Party	Pacific Central Region at Mattress Firm Inc.
9	Jim McHargue	Local Government	Amador County
10	Curtis Michelini	Solid Waste Industry	Industrial Carting and Global Materials Recovery
11	Veronica Pardo	Solid Waste Industry	California Refuse Recycling Council
12	Tchad Robinson	Private Sector	Blue Marble Materials
13	Heidi Sanborn (Joanne Brasch, Alternate)	Environmental Community	California Product Stewardship Council
14	Jo Zientek	Local Government	Santa Clara County

Executive Summary

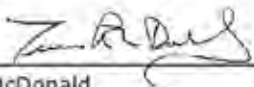

In accordance with Section 42990.1.(k) of the Public Resources Code, The Mattress Recycling Organization Advisory Committee (Committee) presents in this document its report on the second year of the [California Used Mattress Recycling Program](#) (Program). This report is submitted by the Committee and includes information discussed and voted on by the Committee in accordance with the Bagley-Keene Open Meeting Act. The Committee is made up of fourteen representatives from local government, the environmental community, the solid waste industry, private sector collectors/processors/recyclers, and interested parties with names and organizations listed above.

All representatives on the Committee are appointed by the Director of California Department of Resources Recovery and Recycling (CalRecycle). When positions open for new committee members, the announcement and application process is hosted by CalRecycle. Interested parties can join the [CalRecycle Listserve](#) to stay up-to-date on CalRecycle announcements on the Program.

The Committee was formed in accordance with Section 42987(a)(3) of the Public Resources Code to maintain an advisory role to the mattress recycling organization, currently being fulfilled by the Mattress Recycling Council (MRC), throughout Program operation. The information contained within this report includes a summary of the consultative process between the Committee and the MRC relating to the ongoing implementation of the [Used Mattress Recovery and Recycling Plan](#) (Plan), as well as any other information deemed pertinent by the Committee to maximizing the recovery and recycling of used mattresses in the state.

The Committee looks forward to continuing its consultative role to the MRC as the Program continues throughout California.

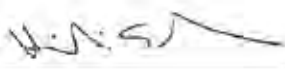

Respectfully,

Terry McDonald
Chair

Kelly McBee
Vice-Chair

Heidi Sanborn
Secretary

2017 Mattress Recycling Advisory Committee Report

May 30, 2018

Introduction:

Comment letters by the Committee, Committee meeting agendas, meeting notes, and other materials utilized by the Committee during 2017 are available on the Committee's [webpage](#), hosted by CalRecycle.

Many members of the 2016 Committee, as listed in the 2016 Committee Annual Report, remain as of the date of this report. Changes to Committee membership since the 2016 Annual Report was published are as follows:

Environmental Community: Kelly McBee of Californians Against Waste (CAW) has been appointed to the Committee after serving as an alternate in 2016 for her predecessor at CAW, Teresa Bui.

Joanne Brasch of the California Product Stewardship Council (CPSC) has served as an alternate for Heidi Sanborn of CPSC during all meetings in 2018.

Local Government: Frank Chin of the Los Angeles Dept. of Public Works has resigned.

Rebecca Andreassen of the Office of Mayor Eric Garcetti, City of Los Angeles has been appointed to the Committee.

Jim McHargue of Amador County has been appointed to the Committee.

Interested Parties: Sharron Bradley of North American Home Furnishings Association has resigned.

Mike Combest of The Sleep Train has resigned.

Rebecca Jewell, Private Consultant for waste management & recycling, has been appointed.

Robert McGowan of Pacific Central Region at Mattress Firm Inc. has been appointed.

Purpose:

The purpose of this report is to provide a summary of the consultative process between the Committee and the MRC regarding the MRC's administration of the Program during the 2017 calendar year, and to provide any other information the Committee deems pertinent to maximizing the recovery and recycling of used mattresses in the state.

Summary of Committee Meetings:

June 6, 2017 – In-person meeting in Sacramento between the Committee and MRC. Teleconference opportunities were provided and utilized by some Committee members.

The Committee discussed reporting timelines for the 2016 Annual Report, the roles of the MRC and the Committee, and the success of the first year of the Program including education and outreach efforts.

The MRC presented information regarding Solid Waste Facility payments, changes to the illegal dumping program for 2018, collection locations established to-date, and updates on MRC staff additions to the Committee. The MRC also mentioned its intention to reduce the consumer fee in 2018 by fifty cents to \$10.50 a mattress.

On June 30, 2017 the Committee submitted its 2016 Annual Report to CalRecycle and the Committee (available as Appendix F, pg 159, in the [2016 MRC Annual Report](#).)

July 2017 - The Committee communicated via email amongst itself to prepare and submit on July 31, 2017 a formal comment letter to CalRecycle and the MRC on the MRC's 2016 Annual Report and Proposed 2018 Program Budget. A copy of the Committee's comment letter is available on both the [Annual Reporting by the Mattress Recycling Organization](#) webpage, and the [Mattress Stewardship Budgets](#).

September 2017 - Doug Kobold, on behalf of the Committee, provided public comments to the MRC at the CalRecycle Monthly Public meeting reiterating the Committee's comments in the above letter, principally the Committee's opposition to the lowering of the consumer fee.

November 2017 - The Committee communicated via email amongst itself to prepare and submit on November 22, 2017 a formal comment letter to CalRecycle and the MRC on the MRC proposed 2018 baseline and goals. A copy of the Committee's comment letter is available on the [State Mattress Baseline Amount and Recycling Goals](#).

January 17, 2018 - In-person meeting in Sacramento between the Committee, MRC Staff, and CalRecycle program staff. Teleconference opportunities were provided and utilized by some Committee members and some MRC Staff. The Committee discussed ongoing Program implementation.

April 20, 2018 - In-person meeting in Sacramento between the Committee and MRC Staff. Teleconference opportunities were provided and utilized by some Committee members. The Committee discussed ongoing Program implementation. Notes from this meeting will be available on the Committee's webpage by the date of this document's submission.

May 8, 2018 - Inaugural Mattress Program Quarterly Meeting between two members of the Committee, MRC Staff, and CalRecycle Staff.

May 10, 2018 - In-person meeting in Sacramento between the Committee, MRC Staff and CalRecycle Staff.

Meeting Summary - Throughout 2017, MRC staff was frequently in direct contact via email with the Committee as a whole and intermittently with individual Committee members to provide Program updates and discuss concerns or issues. The Committee has appreciated

the MRC's consistent communications and timely responses to concerns, which has afforded the Committee opportunities to provide immediate feedback.

Additional Committee Comments

The Committee intends to submit formal comments on the 2017 Annual Report when available, and will accordingly reserve most substantive Program comments for inclusion in that letter. The Committee comments on the 2017 Annual Report will likely focus on the Committee's areas of key interest, including the diversion of mattresses from landfill and the creation of commodity markets; illegal dumping; and Stakeholder outreach and program marketing. These interests of the Committee are reflected in the recent creation of three Committee Subcommittees focusing on these topics.

At this time, the Committee would like to encourage the MRC to include the following in the 2017 Annual Report:

- 1. Information on Retailer Enforcement**

The Committee understands that CalRecycle executes all Program enforcement. However, information on the number of retailers in or out of compliance with the various Program requirements is a key part of evaluating Program performance. The Advisory Committee encourages the MRC to coordinate with CalRecycle as necessary and incorporate information about retailer compliance with the Program in the 2017 Annual Report.

- 2. Illegal Dumping Data by Participant**

At the Quarterly meeting on May 8, 2018, participants expressed a desire to receive data on illegally dumped mattresses by reporting participant, not by county as was done in the 2016 Annual Report. The Committee supports this suggestion and encourages the MRC to provide illegal dumping numbers by participant, as available.

- 3. Intention to Research Bulky Item Pick-up and Illegal Dumping Correlation**

The Committee supports the MRC's recent revisions to the illegal dumping information collection project and supports research into the effectiveness of the new payment amounts. Additionally, the Committee supports research into the potential correlation between lower illegal dumping numbers in cities and counties that offer bulky item pick-up services to their residents.

- 4. Adherence to Waste Management Hierarchy**

The Committee would like to take this opportunity to stress the continued importance of this Program's adherence to California's Waste Management Hierarchy and urges the MRC to note, in detail and throughout the report, how the Hierarchy was prioritized. As specified in Sections 40051 and 40196 of the California Public Resources Code, the Waste Management Hierarchy prioritizes managing "waste" as follows: reduce, reuse, recycle, dispose.
